Article 4

(1) The point in time at which a payment order is received shall be understood to mean the time when the payment order submitted directly by the payer or indirectly by or through the payee or through a payment initiation service provider is received by the payer's payment service provider. If the time of receipt is not on a business day for the payer's payment service provider, the payment order shall be deemed to have been received on the following business day. A payment service provider may establish a cut-off time near the end of a business day beyond which any payment order received shall be deemed to have been received on the following business day. Funds may not be debited from the payer's payment account before the point in time at which a payment order is received.

(2) 'Business day' means a day on which the relevant payment service provider of the payer or the payment service provider of the payee involved in the execution of a payment transaction is open for business and which is not a non-working day or a public or bank holiday.¹⁶

(3) If a payment service user initiating a payment order and their payment service provider agree that the payment order shall be executed on a specific day or at the end of a certain period or on the day on which the payer set funds at the payment service provider's disposal, the point in time of receipt of the payment order shall be deemed to be the agreed

day. If the agreed day is not a business day for the payment service provider, the payment order received shall be deemed to have been received on the following business day.

Article 5

(1) Where a payment service provider refuses to execute a payment order or a payment initiation service provider refuses to initiate a payment transaction, it shall notify the payment service user of this fact. The payment service provider or payment initiation service provider shall also notify the payment service user of the reasons for such refusal and, where it is possible, of the procedure for rectifying any factual errors that led to the refusal of the payment order, unless a separate law provides otherwise.¹⁷

(2) The payment service provider shall provide or disclose the notification referred to in paragraph (1) in an agreed manner without any undue delay, and in any case, within the periods specified in Article 15.

(3) It may be agreed in a framework contract that the payment service provider may charge for a notification referred to in paragraph (1) if the refusal is objectively justified by reasons attributable to the payment service provider.

(4) In the cases where all the terms and conditions set out in the framework contract are met, the payment service provider maintaining the payment account shall execute a payment order authorised under paragraph (8), irrespective of whether the payment order is initiated by the payer or by or through the payee or through a payment initiation service provider, unless a separate law provides otherwise.¹⁷

(5) A payment order the execution of which has been refused shall be deemed not to have been received and shall be subject to Articles 15 and 22.

Article 6

(1) A payment service user may not revoke a payment order once it has been received by the payer's payment service provider, unless paragraphs (2) to (5) provide otherwise.

(2) Where a payment order is given by or through the payee or through a payment initiation service provider, the payer may not revoke the order for such payment transaction after the payment order has been sent or the payer has given its consent to the payee or to the payment initiation service provider to execute the payment transaction in question.

(3) In the case of a direct debit where the payer:

- (a) has consented to the execution of the payment order directly to its payment service provider, the payer may revoke such payment order, revoking at the same its previous consent, at the latest by the end of the business day immediately preceding the day agreed for debiting the funds, which shall be without prejudice to the payer's right to refunds of its funds, unless otherwise agreed in a framework contract in accordance with Article 13; or
- (b) has consented to the execution of the payment order directly to the payee, the payer may revoke the payment order in respect of an individual payment transaction to be executed under its consent, at the latest by the end of the business day immediately preceding the day agreed for debiting the funds, which shall be without prejudice to the payer's right to

refunds of its funds, unless otherwise agreed in a framework contract in accordance with Article 13.

(4) In the case of a payment order referred to in Article 4(3), the payment service user may revoke a payment order at the latest by the end of the business day immediately preceding the agreed day.

(5) After the time limits specified in paragraphs (1) to (4), a payment order may be revoked only if so agreed between the payment service user and its payment service provider; where a payment order is to be revoked in a case referred to in paragraphs (2) and (3), the payee's consent shall also be required. If agreed in the framework contract, the payment service provider may impose a charge for revocation.

Article 7

(1) The payment service provider of the payer, the payment service provider of the payee and any intermediaries of the payment service providers shall transfer the full amount of the payment transaction and refrain from deducting charges from the amount transferred, except as provided for in paragraph (2). 'Intermediary' means, for the purposes of this Act, any payment system operator or payment service provider other than the payment service provider of the payer or the payee.

(2) However, the payee and its payment service provider may agree that the payment service provider will deduct its charges from the amount transferred before crediting it to the payee. In such a case, the full amount of the payment transaction and that of the charges shall be separately indicated in the information given to the payee under Article 41.

(3) If any charges other than those referred to in paragraph (2) are deducted from the amount transferred, the payment service provider of the payer shall ensure that the payee receives the full amount of the payment transaction initiated by the payer; in the cases where the payment transaction is initiated by or through the payee, its payment service provider shall ensure that the full amount of the payment transaction is received by the payee.

Article 8

(1) If the payer has given consent to execute a payment transaction, that payment transaction shall be considered to have been authorised; the payer may also give consent to execute a payment transaction through the payee or through a payment initiation service provider. A payment transaction may be authorised by the payer prior to or, if agreed between the payer and its payment service provider, after the execution of the payment transaction.

(2) Consent to execute a payment transaction or a series of payment transactions shall be given in the form and shape agreed in a contract for the provision of a single payment service or a framework contract between the payer and its payment service provider. In the absence of such consent, the payment transaction shall be considered to be unauthorised.

(3) Consent may be withdrawn by the payer no later than the point of irrevocability under Article 6. Consent to execute a series of payment transactions may also be withdrawn with the effect that any future payment transaction is to be considered to be unauthorised.

(4) The procedure for giving consent shall be agreed in a contract for provision of a single payment service or in a framework contract between the payer and the payment service provider or between the payer and the payment initiation service provider.

Article 9

(1) The payment service user is entitled to rectification from a payment service provider where it notifies its payment service provider without undue delay upon becoming aware of any unauthorised or incorrectly executed payment transaction, but no later than 13 months after the date the funds have been debited from or credited to the payment account, of the unauthorised or incorrectly executed payment transaction giving rise to a claim, including claims referred to in Article 22. The time limit shall apply to the extent the payment service provider has provided or disclosed the information on that payment transaction in accordance with Articles 40 and 41.

(2) A payment service user is also entitled to rectification from a payment service provider under paragraph (1) where the payment service user gives a payment order through a payment initiation service provider; this is without prejudice to the provisions of Articles 11(1) and 22(1).

Article 10

(1) Where a payment service user denies having authorised an executed payment transaction or claims that the payment transaction was not correctly executed, it is for the payment service provider to prove that the payment transaction was authenticated, accurately recorded, entered in the accounts and not affected by any technical breakdown or any other deficiency. If the payment transaction is initiated through a payment initiation service provider, it is for the payment initiation service provider to prove that the payment transaction was authenticated, accurately recorded and not affected by any technical breakdown or any other deficiency.

(2) Where a payment service user denies having authorised an executed payment transaction, the use of a payment instrument recorded by the payment service provider, or by a payment initiation service provider where appropriate, is not in itself necessarily sufficient to prove either that the payment transaction was authorised by the payer or that the payer caused an unauthorised payment due to acting fraudulently or failing with intent or gross negligence to fulfil one or more of its obligations set out in Article 26. The payment service provider or the payment initiation service provider, where appropriate, shall provide supporting evidence to the payer regarding the payment service user's action as described in the previous sentence.

Article 11

(1) The payer's payment service provider shall refund the payer the amount of any unauthorised payment transaction immediately, and in any event no later than by the end of the following business day, after noting or being notified of the unauthorised payment transaction; where applicable, the payer's payment service provider shall restore the debited payment account to the state in which it would have been if the unauthorised payment transaction had not taken place, including by crediting the funds to the payer's payment account with a credit value date for the payer's account no later than the date the amount had

been debited from the payer's payment account; this is without prejudice to the provisions of Article 9. The time limit specified in the first sentence hereunder shall not apply where the payer's payment service provider has reasonable grounds for suspecting fraud and communicates those grounds in writing to Národná banka Slovenska without delay. This is without prejudice to the provisions of Article 89(6) and (7).

(2) Where payment transactions are initiated through a payment initiation service provider, the account servicing payment service provider shall refund the payer the amount of any unauthorised payment transaction in accordance with paragraph (1). If the payment initiation service provider is liable for an unauthorised payment transaction, it shall immediately compensate the account servicing payment service provider at its request for the losses incurred or sums paid as a result of the refund to the payer, including the amount of the unauthorised payment transaction; this is without prejudice to the provisions of Article 10(1).

(3) For the purposes of paragraph (1), Národná banka Slovenska shall make publicly available on its website a template form for reporting cases that arouse suspicion that the payer has acted fraudulently, including the grounds for such suspicion.

(4) The payer shall be entitled to financial compensation for any further evidenced loss, the amount of which shall be determined in accordance with the law applicable to the contract concluded between the payer and its payment service provider or between the payer and its payment initiation service provider, where appropriate.

(5) The provisions of paragraphs (1), (2) and (4) shall not apply to electronic money if the payment service provider is not able to freeze the payment account or the electronic device on which the electronic money is stored.

Article 12

(1) A payer shall bear the losses relating to any unauthorised payment transactions, up to a maximum of EUR 50, resulting from the use of a lost or stolen payment instrument or from the misappropriation of a payment instrument by an unauthorised person owing to the payer's negligent failure to keep their personalised security features safe in accordance with Article 26(c), unless otherwise provided in paragraphs (2) to (4).

(2) A payer shall bear all the losses relating to any unauthorised payment transactions if they were incurred by the payer by acting fraudulently or failing to fulfil one or more of the obligations set out in Article 26 with intent or gross negligence. In such cases, the provisions of paragraph (1) shall not apply.

(3) The payer shall not bear any financial losses where:

- (b) the loss, theft or misappropriation of a payment instrument was not detectable to the payer prior to a payment transaction, except where the payer has acted fraudulently;
- (c) the loss was caused by acts or lack of action on the part of an employee, agent or branch of a payment service provider or of an entity to which its activities were outsourced;
- (d) the payer's payment service provider does not require strong customer authentication or

it provides an exemption from strong customer authentication under a separate regulation,^{15a} except where the payer has acted fraudulently.

(4) Where the payee or the payee's payment service provider does not accept strong customer authentication, it shall refund the financial damage caused to the payer's payment service provider.

(5) If the payment service provider does not provide appropriate means for the notification of a lost, stolen or misappropriated payment instrument, as required under Article 27(1)(c), the payer shall not be liable for the financial consequences resulting from use of that payment instrument, except where it has acted fraudulently.

(6) The provisions of paragraphs (1) to (5) shall not apply to electronic money if the payment service provider is not able to block the payment account or the electronic device in which the electronic money is held.

Article 13

- (a) the authorisation did not specify the exact amount of the payment transaction at the time of authorisation; and
- (b) the amount of the payment transaction exceeds the amount that the payer could reasonably have expected taking into account its previous spending pattern, the conditions of the framework contract and the circumstances of the case.

(2) At the payment service provider's request, the payer shall provide specific information regarding an executed payment transaction as referred to in paragraph (1), within the time limit specified in Article 14(2); the refund shall consist of the full amount of the executed payment transaction. The credit value date of the refund transferred to the payer's payment account must not be later than the date when the amount was debited from the payer's payment account.

(3) For direct debit transactions, the payer and its payment service provider may agree in a framework contract that the payer is entitled to a refund from its payment service provider even where the conditions for refund set out in paragraph (1) are not met, except for direct debits referred to in paragraph (5). In the case of a direct debit transaction of the type referred to in a separate regulation,^{17a} the payer is entitled to an unconditional refund from its payment service provider of the full amount of the direct debit transaction within the time limit specified in Article 14(2).

(4) For the purposes of paragraph (1)(b), the payer may not rely on currency exchange reasons if the reference exchange rate agreed with its payment service provider in accordance with the second point in Article 31(5)(d) and Article 35(1)(d) was applied in the conversion.

(5) It may be agreed in the framework contract that the payer is not entitled to a refund according to paragraph (1) if:

- (a) the payer has given its consent to execute the payment transaction directly to its payment service provider; and

(4) Where the payment order for a payment transaction is initiated by or through the payee, the payee's payment service provider shall deliver such payment order to the payer's payment service provider within the time limits agreed in the framework contract between the payee and the payment service provider so that the payment transaction, as far as direct debit is concerned, can be executed on the day agreed for the debiting of the amount of the payment transaction from the payment account of the payer.

Article 16

The foregoing is without prejudice to the liability of the payment service provider or intermediary under Articles 21 to 24.

(9) Corrective settlement according to paragraph (8) shall not be possible if the payment service provider of the payee receiving the defective credit transfer is the State Treasury. The payment service provider liable for the defective execution or the credit transfer shall request the State Treasury to arrange a refund of the amount of the defective credit transfer; such refund shall be subject to consent of the payee. In such cases, the account servicing payment service provider shall inform the payer that access to the payment account is denied and the reasons therefor in the form agreed. That information shall, where possible, be given to the payer before access is denied and at the latest immediately thereafter, unless providing such information would compromise objectively justified security reasons. The account servicing payment service provider shall allow access to the payment account once the reasons for denying access no longer exist as a result of a payment initiation service or account information service provided.

(6) The account servicing payment service provider shall immediately inform Národná banka Slovenska and the competent authorities active in criminal proceedings of any unauthorised or fraudulent transaction in accordance with the first sentence of paragraph (5).

(13) Národná banka Slovenska shall submit this information to the host Member State's supervisory authority within one month from the receipt of a notification pursuant to paragraph (12), and shall inform the electronic money institution accordingly. If, within a month from the receipt of such information, the host Member State's supervisory authority reports the relevant information to Národná banka Slovenska in connection with the electronic money institution's intention to issue and administer electronic money, mainly reasonable doubts about the institution's intention to establish a branch, in the case of money laundering or terrorist financing, Národná banka Slovenska shall refuse to register the branch of that electronic money institution or shall cancel its registration (if any); if Národná banka Slovenska does not agree to these doubts, it shall notify the host Member State's supervisory authority of its decision, including its reasons. Národná banka Slovenska shall, within three months from the receipt of a notification pursuant to paragraph (12), notify the host Member State's supervisory authority and the electronic money institution of its decision whether the electronic money institution may issue and administer electronic money in the host Member State through its branch or without establishing a branch.

(14) An electronic money institution shall, without delay, notify Národná banka Slovenska in writing pursuant to paragraphs (12) and (22) of any change in the information reported under paragraph (12), including the use of a branch or the outsourcing of operational activities to another person in the host Member State.

(15) If Národná banka Slovenska wishes to carry out on-site supervision at a branch of an electronic money institution in the territory of a host Member State, Národná banka Slovenska shall notify the competent supervisory authority of that state and cooperate with it. Národná banka Slovenska may agree with the competent supervisory authority of the host Member State that the on-site supervision shall be carried out by that supervisory authority.

(16) Národná banka Slovenska may agree with the competent supervisory authority of the home Member State that it will carry out on site supervision at the branch of the foreign electronic money institution in the Slovak Republic.

(17) Národná banka Slovenska shall provide competent supervisory authorities of other Member States with all necessary information, particularly in cases where violation of obligations by a branch of a foreign electronic money institution in the territory of the Slovak Republic has occurred or is suspected.

(18) Where the suspicion of unauthorised issue and administration of electronic money is reasonable, Národná banka Slovenska may request necessary information related to such suspicion from the person conducting this action. This person shall provide without undue

delay Národná banka Slovenska at its request with required information in the required form, shape and structure, while the information can be verified directly at that person's place of business. This verification and its procedure is equally governed by a separate law.^{58a}

(19) If Národná banka Slovenska finds in accordance with paragraph (18) that the issue and administration of electronic money are provided by a person without any authorisation under this Act or other provisions are disobeyed or circumvented of this Act, legally binding acts of the European Union relating to the issue and administration of electronic money, separate laws²⁰ or other legislation of general application which relate to the issue and administration of electronic money, it shall prohibit further issue and administration of electronic money and impose sanction against this person in accordance with paragraph (2)(b) depending on the gravity, scope, duration, impacts and character of shortcomings found, and report that fact to competent law enforcement authorities if required by legislation of general application.

(20) For the breach of obligations which arise from this Act or legislation of general application relating to the conduct of activities provided for by this Act or conduct of supervision, from an electronic money institution's articles of association or from other internal regulations, or for the breach of requirements or obligations imposed by a decision of Národná banka Slovenska, Národná banka Slovenska may, depending on the gravity, degree of culpability, scope, duration, impact and character of shortcomings found,

- (a) impose on a member of an electronic money institution's statutory body or supervisory board a fine of up to 12 times his monthly average of total remuneration received during the previous year from the electronic money institution; where this person's remuneration was received from the electronic money institution only during a part of the previous year, the monthly average shall be calculated from the total remuneration for that part of the year;
- (b) impose on an authorised representative in an electronic money institution a fine of up to 12 times his monthly average of total remuneration received during the previous year from the electronic money institution; where this officer's remuneration was received from the electronic money institution only during a part of the previous year, the monthly average shall be calculated from the total remuneration for that part of the year.

(21) An electronic money institution must, without undue delay, release from their position any person who became, on grounds of the lawful imposition of fine, unfit and improper in accordance with Article 2(31).

(22) A foreign electronic money institution with its registered office in another Member State may issue and administer electronic money in the territory of the Slovak Republic through its branch, or without establishing a branch, if it is duly authorised in its home country to issue electronic money, on the basis of a written notification sent by the home Member State's competent supervisory authority to Národná banka Slovenska. After assessing the notification received, Národná banka Slovenska shall, within one month from the date of receipt thereof, provide the home Member State's competent supervisory authority with the relevant information in connection with the relevant foreign electronic money institution's intention to issue electronic money, mainly its reasonable doubts about the intention of that institution to establish a branch, in the case of money laundering or terrorist financing. The foreign electronic money institution shall be liable for any damage caused by its branch. Supervision over branches established in the Slovak Republic by foreign electronic money institutions shall be exercised by the supervisory authority of the home Member State

concerned. Where the provisions of Part Five to Part Seven of this Act are infringed or suspected to be infringed, supervision over such branches established by the right of establishment shall be exercised by Národná banka Slovenska.

(23) A branch of an electronic money institution may commence its activities in a host Member State upon registration in accordance with Article 85d(1). The electronic money institution shall notify to Národná banka Slovenska the date from which it commences its activities through its branch in the relevant host Member State. Národná banka Slovenska shall inform the competent supervisory authority of the host Member State accordingly.

(24) Where Národná banka Slovenska ascertains that a branch established in the Slovak Republic by a foreign electronic money institution is in breach of any of the provisions of Part Five to Part Seven of this Act, it shall immediately inform the competent supervisory authority of the home Member State of the institution concerned.

(25) Where immediate action is necessary to address a serious risk to the collective interests of electronic money owners and the supervisory authority of the home Member State has failed to take the necessary measures to remedy the breach referred to in paragraph (24), Národná banka Slovenska may, in cooperation with the home Member State's supervisory authority, take precautionary measures to protect the collective interests of electronic money owners. The precautionary measures taken may not result in a preference for holders of electronic money of a foreign electronic money institution in the State over holders of electronic money of that electronic money institution in other Member States. Where appropriate, Národná banka Slovenska shall, without undue delay and in advance, report the precautionary measures to be taken and its reasons for doing so to the European Commission, the European supervisory authority (European Banking Authority), the relevant supervisory authority of the Member State in which the foreign electronic money institution is registered, and to the competent supervisory authority of the other Member State concerned. When the reasons cease for the taking of precautionary measures, Národná banka Slovenska shall terminate these measures with the assistance of the home Member State's competent supervisory authority or the European supervisory authority (European Banking Authority).

(26) Národná banka Slovenska may require that a foreign electronic money institution issuing and administering electronic money through its branch in the Slovak Republic report to Národná banka Slovenska periodically on its activities performed in the Slovak Republic, for information or statistical purposes. Národná banka Slovenska may request such reports for the purpose of monitoring compliance with the provisions of Part Five to Part Seven of this Act. The branch referred to in the first sentence shall be subject to the confidentiality requirement laid down in Article 88.

(27) Electronic money institutions whose registered office is located in another Member State and which issue and administer electronic money in the territory of the Slovak Republic through other persons pursuant to Article 81(10) shall appoint a central contact point in the Slovak Republic under a separate regulation,^{15a} to ensure adequate communication and information reporting on compliance with Part Five to Part Seven of this Act; this is without prejudice to the provisions of a separate regulation.⁵⁸ The central contact point shall also serve to facilitate supervision by the home Member State's competent authority, as well as by Národná banka Slovenska, including by providing these authorities with documents and information on request.

(28) After being informed by the host Member State's supervisory authority of the breach of legal regulations by a branch of an electronic money institution or by another person pursuant to Article 81(10) in the territory of that Member State, Národná banka Slovenska shall take measures to remedy the breach of legal regulations by that branch or by another person under Article 81(10). Národná banka Slovenska shall inform the host Member State's supervisory authority and the competent supervisory authority of any other Member State concerned of the measures taken, without undue delay.

(29) Národná banka Slovenska shall inform the relevant foreign electronic money institution or the payment institution concerned of the reasons for the taking of measures pursuant to paragraphs (2), (13), (17), (22), (24), (25) and (27), including the imposition of sanctions or restrictions on the issuance and administration of electronic money by the electronic money institution in another Member State or of restrictions on the issuance and administration of electronic money in the Slovak Republic by the foreign electronic money institution.

(30) The provisions of paragraphs (12) to (17) and (22) to (29) are without prejudice to provisions of separate regulations^{58e} establishing the obligation of Národná banka Slovenska to supervise or monitor compliance with the requirements laid down in these regulations.

Article 86a

Národná banka Slovenska may request the relevant authority of the host Member State to provide such cooperation. The confidentiality obligation as defined in this Act and in separate regulations^{58c} shall not apply to the provision of information under this paragraph.

(2) If Národná banka Slovenska and the supervisory authority referred to in paragraph (1) fail to reach an agreement within two calendar months from the delivery of an application pursuant to paragraph (1), Národná banka Slovenska shall defer its decision and take only the necessary steps, while taking into account the opinions and reservations of the supervisory authority pursuant to paragraph (1). Within two months from the delivery of an application under paragraph (1), Národná banka Slovenska shall request the European supervisory authority (European Banking Authority) for assistance in reaching an agreement in accordance with a separate regulation.^{58d}

(8) An electronic money institution whose authorisation has been revoked pursuant to paragraph (7) shall, within one month from the date of revocation of that authorisation, settle all its liabilities arising from the activities it performed on the basis of its existing authorisation to issue electronic money.
