Supervision shall be exercised in the range specified therein over individual banks, foreign bank branches, or other entities, as well as over consolidated groups comprising banks and over financial conglomerates in accordance with Section 49c.

(2) In exercising supervision over a bank or a foreign bank branch, Národná banka Slovenska shall, in particular, review and evaluate the organisation, management, division of responsibilities, strategies, systems and procedures adopted for the performance of activities as defined in the banking authorisation, information flows, and the risks to which the bank or foreign bank branch under supervision is or may be exposed; in so doing, Národná banka Slovenska shall also verify whether the supervised entity has enough own funds to cover these risks in accordance with Section 29(3). In carrying out supervisory review and evaluation according to the first sentence, Národná banka Slovenska shall apply the principle of proportionality in accordance with the general evaluation criteria and methodology published in accordance with paragraph 20(c). Národná banka Slovenska shall, at least once a year, carry out a review and evaluation appropriate to the nature and scope of the banking activities performed. On the basis of the results thereof, Národná banka Slovenska shall assess whether the organisation and management of the bank or foreign bank branch under supervision, the strategies, systems and procedures used in performing the activities stated in the banking authorisation, and the level of own funds conform to the rules of prudent management of a bank or a foreign bank branch, and it shall also assess the adequacy of risk coverage by own funds. On the basis of this assessment, Národná banka Slovenska shall notify the supervised entity whether its own funds suffice for the coverage of risks; if there is a shortage of own funds, Národná banka Slovenska shall specify the required amount of own funds in this notification. In exercising supervision, Národná banka Slovenska shall duly consider the potential impact of its decisions on the stability of the financial system, especially in emergency situations as defined in Section 48(8)(c). If, on the basis of an examination, Národná banka Slovenska finds that a bank or a foreign bank branch represents a systemic risk, it shall forthwith inform the European supervisory authority (European Banking Authority)¹³⁰ of the results of that examination.

Such tailored methodology may include risk-oriented benchmarks and quantitative indicators, shall allow for due consideration of the specific risks that each bank or foreign bank branch may be exposed to, and shall not affect the institution-specific nature of corrective measures imposed in accordance with Section 50. When following the procedure referred to in the first sentence, Národná banka Slovenska shall notify the European supervisory authority (European Banking Authority).^{13o}

(34) If, after performing the review and evaluation in accordance with paragraph 2, there are reasonable grounds to suspect that the bank or foreign bank branch is in breach of, breached or attempted to breach the provisions of other legislation,^{21a} or there is an elevated risk of breaching the provisions of another act,^{21a} Národná banka Slovenska shall, without delay, inform the European supervisory authority (European Banking Authority) and the Financial Intelligence Unit of the results of the examination. Where a bank's internal approaches lead to an underestimation of the own funds requirements, which are not associated with the differences in related risks in exposures or positions, Národná banka Slovenska shall impose a measure on the bank in accordance with Section 50.

(4) The measures imposed under paragraph 3 may not:

- (b) be in line with the bank's business strategy, values, and long-term objectives;
- (c) incorporate measures to avoid conflicts of interest;
- (d) be consistent with the principle of equal treatment laid down in another act.^{27fbc}

(5) The internal control and internal audit unit shall, at least once a year, verify the application of the remuneration principles referred to in paragraph 1 adopted by the bank's supervisory board in accordance with Section 24(4).

(6) Employees of the bank's internal control and internal audit unit who are subject to the remuneration principles referred to in paragraph 1 shall be remunerated in accordance with the achievement of the objectives linked to their functions, independent of the performance of the bank's business areas they control.

(7) The remuneration principles referred to in paragraph 1 shall make a distinction between criteria for setting:

- (a) the guaranteed fixed remuneration component, which is to reflect the professional competence and responsibility within the bank's organisation and management as set out in the job description of the person referred to in paragraph 1; and
- (b) the variable remuneration component, which is to reflect a sustainable and risk adjusted performance within the bank's organisation and management of the person referred to in paragraph 1, as well as performance in excess of that required under their job description.

(8) For the purposes of applying the remuneration principles, banks that are considered significant due to their size, internal organisation and the nature, scope and complexity of their activities shall mean banks that meet the following criteria:

- (c) the variable remuneration components payable to statutory body members and to supervisory board members, which are approved for the period under review only if they are justified.

Section 23b

(1) In addition to the general principles referred to in Section 23a(4) to (7), the variable remuneration component shall also be subject to the principles specified in paragraphs 2 to 18.

(2) Where remuneration is performance related, the variable component of total remuneration shall be based on a combination of the assessment of the performance of the person concerned as referred to in Section 23a(1) and of the bank's relevant business unit and of the overall results of the bank; when assessing individual performance of the persons referred to in Section 23a(1), financial as well as non-financial criteria are to be taken into account.

(3) The assessment of performance shall be set in a multi-year framework in order to ensure that the assessment process is based on the bank's long-term business strategy. The payment of performance-based variable remuneration components shall be spread over a period which takes account of the bank's current business cycle and the risks directly associated with the bank's business activities.

(4) The total amount of the variable remuneration component shall take into account the bank's ability to meet the obligations set out in Section 29.

(5) Where a bank meets the obligations set out in Section 29, any person mentioned in Section 23a(1) being trained for independent work may be exceptionally paid variable remuneration in a guaranteed amount over a period of up to one year, from the conclusion of an employment contract with the bank, regardless of the performance assessment results. Variable remuneration in a guaranteed amount shall not depend on risk management or performance or be part of the bank's future remuneration plans.

(6) There must be an appropriate balance between the guaranteed fixed remuneration and variable remuneration of any person referred to in Section 23a(1). The variable remuneration component may not exceed the guaranteed fixed remuneration component. The guaranteed fixed remuneration component must represent a sufficiently large proportion of the total remuneration to enable a flexible policy to be pursued in the area of variable remuneration, including the option to pay no variable remuneration. Guaranteed fixed remuneration is to be determined according to the

professional competence and responsibility within the bank's organisation and management of the person concerned as referred to in Section 23a(1).

(7) Contractual severance payments payable to persons as referred to in Section 23a(1) in connection with early termination of their employment or another similar relationship shall reflect performance of such persons achieved over a certain period of time and may not reward failure or breach of duties.

(8) Compensations payable to persons as referred to in Section 23a(1) in connection with their previous employment are to be consistent with the bank's long-term business strategy, including the conditions for the retention of compensations, deferral of compensations, actual payment of compensations, and recovery of compensations paid.

(9) The measurement of performance used to determine variable remuneration components or pools of variable remuneration components in a bank shall include rules to integrate all relevant types of current and future risks and the bank's ability to meet the obligations set out in Sections 27(9)(b) and 29.

(10) In determining variable remuneration components, banks shall take account of all relevant types of current and future risks.

(11) A substantial portion, at least 50% of the deferred variable remuneration component and 50% of the non-deferred variable remuneration component, shall consist of an appropriate combination of:

- (a) securities; and
- (b) whenever possible, other financial instruments specified in other legislation^{25af} or other instruments that can be fully converted to Tier 1 capital instruments or written down; these instruments must adequately reflect the credit quality of the bank as a going concern.

(12) The securities and other financial instruments referred to in paragraph 11 shall be subject to an appropriate retention period in accordance with the bank's remuneration principles in order to align the motivation of the persons referred to in Section 23a(1) with the bank's long-term objectives.

(13) At least 40% of the variable remuneration component shall be deferred over a period which is not less than four to five years from the determination of the expected variable remuneration component; the deferral period shall be correctly aligned with the nature of the bank's business, its risks and the activities of the person concerned as referred to in Section 23a(1). A bank under Section 23a(8) shall defer at least 40% of the variable remuneration component payable to persons referred to in Section 23a(1)(a) to (c) over a period of at least five years from the determination of the variable remuneration component; the deferral period shall be correctly aligned with the nature of the bank's business, its risks and the activities of the person concerned as referred to in Section 23a(1)(a) to (c). Remuneration payable under deferral arrangements shall vest no faster than on a pro-rata basis. Where the total amount of the expected variable remuneration is exceptionally high, the pro-rata remuneration related to the period referred to in the first and second sentence must not be lower than 60% of the variable remuneration component. The length of the deferral period shall be established in accordance with the business cycle, the nature of the business, its risks and the activities of the person concerned as referred to in Section 23a(1).

(14) When deemed sustainable with respect to the bank's financial position and justified by the performance of the bank and of the relevant business unit and of the person concerned as

referred to in Section 23a(1), persons referred to in Section 23a(1) shall be granted entitlement to the variable remuneration component, including the portion deferred pursuant to paragraph 13, or shall be paid the variable remuneration component, including the portion deferred pursuant to paragraph 13.

(15) Banks shall adopt measures that would allow them to revoke entitlement to the variable remuneration component or part thereof and request the variable remuneration component or part thereof already paid to be returned, should the financial position of the bank concerned worsen significantly; this shall be without prejudice to the provisions of the Labour Code pertaining to wages, wage arrangements, and wage deductions. The criteria for the use of the measures referred to in the first sentence shall also be applied where a person referred to in Section 23a(1) is involved in, or is responsible for, an action causing major financial losses to the bank.

(16) As part of their pension policy, banks may, in accordance with their business strategy, objectives, values and interests, set criteria for determining the variable remuneration component as discretionary payments to the supplementary pension scheme (hereinafter ‘discretionary pension benefits’). Where a bank grants discretionary pension benefits under the first sentence and a person referred to in Section 23a(1) terminates their employment at or another similar relationship with the bank before retirement, discretionary pension benefits shall be held by the bank for a period of five years in the form of instruments specified in paragraph 11. Where a bank grants discretionary pension benefits under the first sentence and a person referred to in Section 23a(1) reaches retirement, discretionary pension benefits shall be paid to this person in the form of instruments specified in paragraph 11, subject to a five year retention period.

(17) Persons referred to in Section 23a(1) may not arrange insurance for the case of non-payment of variable remuneration.

(18) Variable remuneration may not be paid through vehicles or methods that facilitate the circumvention of the provisions of this Act or other legislation.^{30x}

(19) The provisions of paragraphs 11 to 13 and the second and third sentence of paragraph 16 shall not apply to:

- (a) banks that are not large institutions under other legislation^{25ag} and whose average total value of assets on an individual basis under this Act or other legislation^{30x} is equal to or less than EUR 5,000,000,000 during a period of four years preceding the current accounting period;
- (b) employees whose annual variable remuneration is less than EUR 50,000 and not more than one third of that employee’s total annual remuneration.

Section 23c

Repealed as from 29 December 2020.

Section 23d

(1) Banks referred to in Section 23a(8) shall set up a remuneration committee; banks other than those referred to in Section 23a(8) shall not set up a remuneration committee if they put a person in charge of the bank’s remuneration system. The remuneration committee or the person in charge of the bank’s remuneration system shall:

- (a) exercise independent judgement on the remuneration principles and their implications for risk management, own funds, and liquidity;
- (b) be responsible for the preparation of decisions concerning remuneration, including those with implications for risks and risk management, which are to be taken by the statutory body;

- (c) take in account the long-term interests of the bank's shareholders, investors, and other parties when preparing decisions; and
- (d) supervise the remuneration of all statutory body members and managers responsible for risk management.

(2) The remuneration committee of a bank is to consist of at least three members. A member of such committee may be only a member of the bank's supervisory board; this also applies to supervisory board members elected by the bank's employees.

Section 23e

(1) Banks shall notify Národná banka Slovenska in writing of the differences in the remuneration of men and women and of the persons whose total remuneration in the bank for the respective accounting period amounts to at least EUR 1,000,000, and of the number of such persons, by 30 June every year. Where the accounting period is a fiscal year rather than a calendar year, the notification period according to the previous sentence shall be extended by the period of time between the end of the calendar year and the end of the fiscal year.

(2) In exercising supervision, Národná banka Slovenska shall use the information disclosed under Section 37(9)(h) and under other legislation^{25ah} for the purpose of comparing the trends and procedures observed in the area of remuneration.

(3) Národná banka Slovenska shall send the information disclosed under paragraphs 1 and 2 to the European supervisory authority (European Banking Authority).^{25a}

Section 24

(1) A bank shall have a statutory body and a supervisory board. The statutory body is the board of directors. Both the statutory body and the supervisory board must have at least three members. The composition of the statutory body and supervisory board shall ensure that the knowledge, skills and expertise of the statutory body as a whole and of the supervisory board as a whole correspond to the bank's activities, including the main risks.

(2) Members of a bank's statutory body shall be responsible for the preparation, approval, and observance of the bank's organisational structure, for the adoption and operation of the bank's management system, and for the conduct of banking activities in accordance with the bank's internal regulations.

(3) Statutory body members shall be familiar with, control and monitor the activities the bank is authorised to perform, ensure the safety and soundness of the bank, adopt and regularly review the general principles of remuneration, and maintain an effective risk management system. For the purposes of this Act, 'safety and soundness of a bank' means such conduct of banking activities that does not endanger the maintenance of the bank's own funds at the required level, liquidity, compliance with the exposure limits, the legitimate interests of depositors and other creditors, or the banking system.

(4) Members of a bank's supervisory board shall be familiar with and supervise the performance of banking activities, the exercise of powers by the statutory body, and the conduct of other activities. Supervisory board members shall adopt and regularly review the general remuneration principles, oversee their implementation, and monitor the secure and effective functioning of the risk management system. Banks shall deliver a report to Národná banka Slovenska on the verification of compliance with the remuneration principles by 30 June of the year

following the calendar year for which the report is compiled.

(5) Statutory body members, supervisory board members, and managers of a bank shall exercise their rights and obligations in accordance with the law of the Slovak Republic in order to achieve an increase in the value of the bank's shares or profits. The foregoing is without prejudice to their duties pursuant to paragraphs 3 and 4.

Section 25

(1) A member of a bank's statutory body may not constitute, or be a member of, the statutory body, authorised representative, or a member of the supervisory board of another legal person engaged in business.^{26a} A bank's authorised representative or employee may not constitute, or be a member of, the statutory body, authorised representative, or a member of the supervisory board of another legal person that is a client of the same bank, unless paragraphs 14 and 15 provide otherwise.

(2) A member of a bank's supervisory board may not be a member of the statutory body or employee of the same bank, nor a member of another bank's supervisory board or statutory body, or an authorised representative or a person authorised on the basis of an entry in the Commercial Register to act on behalf of the same or another bank, or another legal person that is a client of the same bank; this shall not apply where such client is another bank or a foreign bank controlling the same bank. A member of a bank's supervisory board may be an employee of the same bank only if elected to a position by the bank's employees.

(3) Members of a bank's statutory body or supervisory board, or employees of that bank, may not use any information that has not yet been published and that has been obtained by them in connection with their position or employment with the aim of attempting to conclude or concluding, either directly or indirectly, a transaction for their own account or for the account of a third party. Members of a bank's statutory body or supervisory board, or employees of that bank, may not misuse any information acquired in connection with their position or employment to gain undue benefits either for themselves or for a third party.

(4) The head of a bank's internal control and internal audit unit shall be appointed and dismissed with the prior approval of the supervisory board or at the suggestion of the supervisory board. The remuneration of the head of a bank's internal control and internal audit unit shall be determined under the same conditions by the bank's statutory body. The bank's supervisory board shall be authorised to request the internal control and internal audit unit's head to carry out an audit in the bank in the range it specifies.

(5) The head of a bank's internal control and internal audit unit shall notify the bank's supervisory board and Národná banka Slovenska without delay of any shortcomings found during the activity performed under Section 23(4).

(6) The head of a bank's internal control and internal audit unit may not be a member of the statutory body or supervisory board of the same bank, nor a member of the statutory body or supervisory board of another legal person.

(7) 'Ancillary services undertaking' means an ancillary services undertaking as defined in other legislation.^{26c}

(8) The prohibitions and restrictions stipulated in paragraphs 1 and 2 for a bank's statutory body members and employees shall not apply to their membership of the statutory body or supervisory board of a legal person not engaged in business.^{26d}

(9) Members of a bank's statutory body and supervisory board shall perform their tasks and duties properly, honestly, and independently throughout the term of office, and shall devote enough time to these tasks and duties; the fact that a statutory body member or supervisory board member is a venturer in an associate^{26da} does not in itself constitute an obstacle to their independence.

(10) Banks shall ensure personnel and financial resources for the continuous professional training of their statutory body members and supervisory board members.

(11) In selecting their statutory body and supervisory board members, banks shall follow the rules laid down in other legislation.^{26e}

(13) Národná banka Slovenska shall, without delay, report the information mentioned in paragraph 12 to the European supervisory authority (European Banking Authority).

(14) A member of a bank's statutory body or supervisory board may be a member of no more than one statutory body and three supervisory boards at the same time or a member of no more than five supervisory boards without being a statutory body member, in the case of membership of:

(15) For the purposes of paragraph 14, one or more statutory body or supervisory board member positions in entities referred to in paragraph 14(a), (b), and (e) are considered to be one position only.

(16) In granting prior approval pursuant to Section 9(4), Národná banka Slovenska shall also take into account the individual circumstances, the nature, range, and complexity of the bank's activities, and the time devoted to the performance of the tasks of a statutory body member or a supervisory board member.

Section 26

(1) The provisions of Sections 24 and 25 are without prejudice to the provisions of another act.¹

(2) The provisions of Sections 23 to 25, except for the provisions concerning remuneration, shall similarly apply to foreign bank branches, as well as to the chief executive officers and employees of such branches.

DIVISION SIX
REQUIREMENTS FOR THE OPERATIONS OF BANKS
OR FOREIGN BANK BRANCHES

Section 27

(1) Banks and foreign bank branches shall conduct transactions with their clients on a contractual basis. Banks and foreign bank branches shall proceed with prudence when performing their activities, and shall in particular carry out transactions:

- (a) in a manner that takes into account and mitigates the risks involved;
- (b) in a manner that does not harm the interests of depositors in regard to the recoverability of their deposits and does not threaten the security or financial position of the bank or foreign bank branch concerned, nor the smooth functioning of the banking system, without breaching the applicable laws or other legislation of general application;
- (c) under economic and legal conditions that are favourable for the bank or foreign bank branch concerned, as well as for its clients when transactions are made for the client's account, and with due professional care; banks and foreign bank branches shall provide convincing proof of such professional care;
- (d) in a manner ensuring that, in each transaction, at least two persons are involved on behalf of the bank or foreign bank branch concerned; if this is not possible for operational reasons, they shall forthwith ensure that the transaction is checked by persons who were not involved in its execution.

(2) In order to prevent losses or damage arising from the incorrect performance of banking activities, banks and foreign bank branches shall follow the correct procedures in conducting banking activities and shall adopt and maintain an effective risk management system. Banks and foreign bank branches shall modify their risk management system on the basis of regular reviews of the system's functionality and effectiveness so that it takes into account the ability of the bank or foreign bank branch concerned to face risks and the consequences of the changing economic environment. Banks and foreign bank branches shall, if necessary, adjust the risk management system and the method of its updating through internal regulations, according to which they are obliged to proceed.

Members of the risk management committee shall have appropriate knowledge, skills and expertise to fully understand and monitor the risk management strategy and the risk appetite of the bank. Banks shall also have such adequate internal capital where they hold opposite positions in stock-index futures which are not identical in respect of either their maturity or their composition or both. When using the procedure stipulated in other legislation,²⁶ⁱ banks shall ensure that they hold sufficient internal capital against the risk of loss which exists between the time of the initial commitment and the following working day.

(12) Banks and foreign bank branches may not conclude a contract under terms and conditions that are obviously disadvantageous to them, in particular contracts that oblige them to make an economically unjustified payment or a payment evidently not corresponding to the counter value provided, or contracts that evidently fail to provide sufficient security for their receivables.

(13) A bank shall establish legal relations with the members of its statutory body and a foreign bank branch with the head of the branch in a written contract, which is not governed by another act²⁷ and which is in accordance with this Act.

(15) The head of a foreign bank branch shall be fully liable for any damage they may cause during the performance of their duties where this results from non-compliance with an obligation by the head of the branch, arising from the applicable laws, other legislation of general application, or the internal regulations of the foreign bank branch in question.

(16) A bank or a foreign bank branch may not perform any legal act at its own expense in favour of a member of the bank's statutory body, a member of the bank's supervisory board, or the head of the foreign bank branch in regard to insurance against liability for damage caused during the performance of their duties or in regard to insurance against being dismissed from their posts. If a bank or a foreign bank branch dismisses such persons from their posts on grounds of untrustworthiness under Section 50(2), it shall not pay them any agreed remuneration or remuneration conferred under its internal regulations; the right to any such remuneration shall expire.

(17) The supervisory board of a bank shall ensure that compensation is claimed for any damage caused to the bank and for which a statutory body member is responsible in accordance with paragraph 18.

(18) A member of a bank's statutory body shall be fully liable for any damage they may cause during the performance of their duties where this results from the breach of a statutory body

member's obligation arising from the relevant laws, other legislation of general application, or from the bank's articles of association or internal regulations.

(19) Banks shall perform their activities in a manner ensuring that the following percentage ratios mentioned in paragraph 14(c) are not exceeded:

(3) The fee for a debtor's special account including the minimum range of services under Section 5(ag) shall not exceed €2 per month and shall be debited from the account balance.

Section 28

(1) The prior approval of Národná banka Slovenska shall be required in order to:

- (a) acquire or increase a qualifying holding in a bank so that the share in the bank's share capital or voting rights reaches or exceeds 20%, 30% or 50%, or so that the bank becomes a subsidiary of a person that acquires such a holding in one or more transactions, whether directly or by acting in concert; for the calculation of such holdings, the voting rights shall not be taken into account, nor shall be taken into account the shares that an investment firm, a foreign investment firm, another bank or a foreign bank hold as a result of underwriting or placing of financial instruments on a firm commitment basis,^{27g} unless such rights are exercised or performed

otherwise to interfere with the management of the bank, and provided that they are transferred by the investment firm, the foreign investment firm, another bank or foreign bank to a third party within a year upon their acquisition;

- (b) consolidate, merge, or split a bank, including the consolidation or merger of another legal person with the bank, or to return a banking authorisation, and to reduce the bank's share capital, unless the reduction is due to a loss;
- (c) dissolve a bank for reasons other than those specified under subparagraph (b) or to change its legal form; in this case, the bank shall return its banking authorisation on the date specified in the prior approval decision;
- (d) sell a bank, a foreign bank branch, or parts thereof;²⁸
- (e) use the shares issued by a bank as the subject of security for the liabilities of the holder of these shares or of another person, except for cases where the subject of such security are shares accounting in total for less than 5% of the bank's share capital in one or more transactions, whether directly or by acting in concert;
- (f) perform activities related to a covered bond programme under Section 67(5);
- (g) transfer a covered bonds programme or a part thereof, including the conclusion of an agreement on the transfer of a covered bond programme or conclusion of several agreements on the transfer of parts thereof, as well as to conclude other agreements serving the purpose of transferring the whole of a covered bond programme.

(2) For prior approval to be issued under paragraph 1, the conditions set out in Section 7(2) and (4) are to be met as appropriate; for prior approval to be issued, the transparent and credible origin,^{21a} sufficient volume, and correct structure of financial resources are to be documented prior to the operation for which prior approval is requested. Prior approval under paragraph 1(a) may only be issued if the acquisition or exceeding of a holding by the acquirer does not prove to affect adversely the bank's ability to meet the obligations stipulated by this Act; the issuance of prior approval under paragraph 1(a) does not require the conditions for managers set out in Section 7(2)(e) and (r) to be met. The splitting, consolidation, merger, or dissolution of a bank, including its merger with another legal person, or the sale of a bank or part thereof,²⁸ may not be to the detriment of the bank's creditors; this also applies to the sale of a foreign bank branch or part thereof.²⁸ For prior approval to be issued under paragraph 1(f) or (g), the applicable conditions set out in Sections 67 to 80 are to be met; if the transferor is to be a bank placed in receivership, a bank in resolution or under adjudication of bankruptcy, the conditions set out in Section 55(8) to (10) and in another act^{28a} are to be met as well. A transfer of a covered bond programme or a part thereof shall be governed by the provisions of the Commercial Code concerning the sale of an enterprise or a part thereof,²⁸ with the difference that the transfer of a covered bond programme or a part thereof shall not require a transfer of either the enterprise's personal assets, or any part thereof;^{28b} upon the completion of the transfer of a covered bond programme or a part thereof, the creditor may not seek a declaration of ineffectiveness of the transfer or transition of such liability from the seller to the buyer where the obligation towards the creditor forms a part of the transfer of a covered bond programme or a corresponding part thereof.^{28c}

(3) The provision of paragraph 1 is without prejudice to the provisions of another act.²⁹

(4) It is possible to proceed on the basis of a prior approval granted under paragraph 1 for a period of up to one year, unless such approval is granted for a shorter period or unless *Národná banka Slovenska* stipulates otherwise.

(5) Without prior approval from *Národná banka Slovenska* under paragraph 1, every legal act for which prior approval is required shall be null and void. A legal act performed on the basis of a prior approval granted on the basis of false data shall also be invalid. This shall not apply to the

acquisition of, or increase in, a qualifying holding in a bank under paragraph 1(a) indirectly as a result of a foreign stabilisation measure aimed at mitigating the impacts of the global financial crisis and the sale of a foreign bank branch or part thereof under paragraph 1(d), through which the foreign stabilisation measure alleviates the impacts of the global financial crisis.

(6) An application under paragraph 1(a) shall be submitted by persons that intend to acquire or increase a qualifying holding in a bank, or by a person that has decided to become the parent undertaking of the bank. An application under paragraph 1(b) and (c) shall be submitted by a bank or, in the case of consolidation or merger, jointly by a bank and the legal person to be consolidated or merged. An application under paragraph 1(d) shall be submitted jointly by a bank or a foreign bank and the person acquiring the bank, foreign bank branch, or part thereof. An application under paragraph 1(e) shall be submitted by a shareholder who intends to use the shares as security for the shareholder's liabilities. An application under paragraph 1(f) shall be submitted by a bank. An application under paragraph 1(g) shall be submitted by a bank in cooperation with a covered bond programme administrator; where a covered bond programme is transferred in parts, a bank in cooperation with a covered bond programme administrator shall submit one application covering the transfer of all parts of the covered bond programme. The persons mentioned in this paragraph shall inform Národná banka Slovenska without delay of their intention to perform an act under paragraph 1.

(7) The elements of an application for prior approval under paragraph 1, as well as the documents to be attached to such application, shall be stipulated by Národná banka Slovenska in a decree²³ promulgated in the Collection of Laws.

(8) The person mentioned above shall, upon written request, provide Národná banka Slovenska with information within the time limit set in the request, for the purpose of determining whether an action requiring prior approval under paragraph 1 has taken place, especially with information about the shareholders of commercial companies or cooperatives, and information about agreements on the exercise of voting rights.

(9) A person intending to cancel a qualifying holding in a bank or to reduce its interest in the bank's share capital or voting rights below 20%, 30% or 50%, or to such an extent that the bank ceases to be its subsidiary, shall report this fact in writing to Národná banka Slovenska in advance.

(10) A bank shall forthwith inform Národná banka Slovenska in writing of the facts mentioned in paragraph 1(a) to (g) and paragraph 9.

(11) A bank trading on a regulated market shall, at least once a year or upon request, inform in writing Národná banka Slovenska without delay of its shareholders and other persons having a right to vote at the bank's general meetings; the bank shall also inform in writing the Ministry of its shareholders upon request.

2. persons who have concluded an agreement on the concerted exercise of voting rights in a bank in matters concerning its management, regardless of the form of this agreement or whether it is valid or not;
 3. a controlling or controlled person or by persons controlled directly or indirectly by the same controlling person;
 4. closely related persons;³⁰
- (b) any action by two or more legal entities aimed at acquiring a share in a bank's share capital or voting rights, where the same natural person is the statutory body, a member of the statutory body, a member of the supervisory body, an authorised representative, or holds at least 5% of the legal person's share capital or voting rights, or has the ability to exercise for other reasons influence over the management of these legal entities, comparable with the influence arising from such share;
- (c) any action of personally connected legal entities;
- (d) any other similar action as mentioned in subparagraphs (a) to (c).

(13) For the purposes of concerted actions as defined in paragraph 12, 'controlling person' means any person holding a majority interest in a legal person's voting rights, because that person has a participating interest in the legal person to which the majority of voting rights is attached or because, on the basis of an agreement with other persons, that person is entitled to exercise the majority of voting rights.

(14) For the purposes of concerted actions, 'controlled person' means a legal person in relation to which the controlling person has a position as defined in paragraph 13.

(15) If, through the acquisition of a participating interest pursuant to paragraph 1(a), a bank becomes part of a consolidated group under Sections 44 to 49, which also includes a financial holding company, or if it becomes part of a financial conglomerate under Sections 49a to 49o, which also includes a mixed financial holding company, the granting of prior approval by Národná banka Slovenska shall be conditional upon the presentation of documents certifying the professional competence and trustworthiness of all natural persons who are members of the statutory body of this financial holding company or mixed financial holding company.

(16) 'Professional competence' as referred to in paragraph 15 means adequate knowledge of the financial sector and experience in the area of finance. The trustworthiness of persons mentioned in paragraph 15 shall be verified in accordance with Section 7(15) and (16).

(17) In assessing the fulfilment of conditions under paragraph 2, Národná banka Slovenska shall consult with the competent authorities of other Member States if the acquirer as referred to in paragraph 1(a) is:

- (a) a foreign bank, foreign investment firm, foreign asset management company authorised in another Member State, insurance company from another Member State, or reinsurance company from another Member State;
- (b) the parent undertaking of a person mentioned in subparagraph (a); or
- (c) a natural or legal person controlling the person mentioned in subparagraph (a).

(18) Where the acquirer of a participating interest in a foreign bank from a Member State is a bank, insurance company, reinsurance company, investment firm or asset management company having its registered office in the territory of the Slovak Republic, Národná banka Slovenska shall consult with the competent supervisory authority of the Member State mentioned in Section 7a(1)(a) about the fulfilment of conditions for the acquisition of a participating interest in a foreign

bank established in the territory of a Member State in accordance with the laws of the Member State concerned.

(19) The subject matter of such consultation under paragraphs 17 and 18 shall be the timely disclosure of any information required for assessing the fulfilment of conditions for the acquisition of a participating interest in a domestic or foreign bank. Národná banka Slovenska shall, upon request, provide the competent supervisory authority of the Member State concerned with the required information and, on its own initiative, with any other relevant information. Národná banka Slovenska shall request the competent supervisory authority of the Member State to supply the information required.

(20) A decision to grant prior approval under paragraph 1(a) shall include the views or reservations reported to Národná banka Slovenska by the competent authority of the Member State exercising supervision over the person that has acquired a participating interest in a bank pursuant to paragraph 1(a).

(21) Národná banka Slovenska shall confirm in writing the delivery of an application for prior approval under paragraph 1(a) within two business days of the date of delivery of such application to the acquirer; this also applies to the subsequent delivery of documents attached to the application that were not delivered with the application. Národná banka Slovenska may request, in writing, additional information it needs to examine applications under paragraph 1(a), but no later than the 50th business day of the period set for the processing of applications under paragraph 2. From the day when Národná banka Slovenska sends a request for additional information to the day when an answer is delivered, the process of applying for prior approval shall be suspended, for a period of maximum 20 business days. If Národná banka Slovenska requests additional or more detailed information, the period for the issuance of a decision to grant prior approval shall not be suspended. The suspension of the period under the third sentence may be extended by Národná banka Slovenska by up to 30 business days, if the acquirer is established in, or is governed by the laws of, a third country, or if the acquirer is not an investment firm, asset management company, bank, insurance company, reinsurance company, or a similar institution from a Member State.

(22) Národná banka Slovenska shall decide in the matter of an application for prior approval under paragraph 1(a) within 60 business days after the delivery of this application is confirmed in writing and after all elements of this application are delivered, unless paragraph 24 stipulates otherwise. If Národná banka Slovenska fails to decide in this period, the prior approval shall be deemed to be granted. Národná banka Slovenska shall inform the acquirer of the date when the time limit for the issuance of a decision lapses in a written confirmation of delivery pursuant to paragraph 1. If Národná banka Slovenska decides to reject an application for prior approval under paragraph 1(a), this decision shall be sent to the acquirer in writing within two business days of the date of decision, but no later than the date when the time limit defined in the first sentence lapses.

(23) Národná banka Slovenska shall not issue prior approval under paragraph 1 where the applicant fails to meet any of the conditions set out in paragraphs 2, 6, 8 to 11 or where the data requested under paragraphs 2, 6, 8 to 11 are incomplete. An application for prior approval under paragraph 1 may not be rejected on account of the economic needs of the financial market.

(24) Pursuant to another act,^{30aa} Národná banka Slovenska shall, without delay, evaluate the Resolution Council's request to assess the acquisition of a qualifying holding under paragraph 1(a). After evaluating the Resolution Council's request, Národná banka Slovenska shall, without delay, deliver in writing to the Resolution Council and to the bank concerned the decision to grant or not to grant an approval with the acquisition or increase of a qualifying holding in the bank.

Section 29

(1) Banks shall calculate and systematically monitor the amount of their own funds.

(2) Parent banks as defined in Section 44(2)(a) shall calculate and continuously monitor the amount of their own funds, as well as the own funds of their consolidated groups.

(3) The own funds of a bank are own funds as defined in other legislation.^{30a}

(4) Banks shall maintain their own funds at least at the level of their share capital as defined in Section 7(2)(a). This is without prejudice to the relevant provisions of other legislation.^{30b}

Section 29a

Recommendations on additional own funds

(1) Národná banka Slovenska shall regularly review the level of the internal capital set in accordance with Section 27(7) and (8) as part of the review and evaluation performed in accordance with Section 6(2), including the results of the stress tests referred to in Section 6(27). Pursuant to the review and evaluation referred to in the first sentence, Národná banka Slovenska shall determine for each bank the overall level of own funds it considers appropriate.

(2) On the basis of the review and evaluation referred to in paragraph 1, Národná banka Slovenska shall communicate its recommendations on additional own funds to banks. The recommendations shall determine the own funds exceeding the relevant amount of own funds required pursuant to other legislation,^{30ba} the specific own funds requirement imposed pursuant to Section 50(1)(m), the combined buffer requirement or the requirement in excess of the leverage ratio buffer requirement,^{30bb} which are needed to reach the overall level of own funds considered appropriate by Národná banka Slovenska.

(3) The recommendations of Národná banka Slovenska pursuant to paragraph 2 shall be bank-specific. The recommendations on additional own funds may also cover risks addressed by the specific own funds requirement imposed pursuant to Section 50(1)(m) only to the extent that it covers aspects of those risks that are not already covered under that requirement.

(4) Own funds that are used to meet the recommendations communicated in accordance with paragraph 2 to address risks other than the risk of excessive leverage shall not be used by banks to meet any of the following:

- (a) the own funds requirement set out in other legislation;^{30bc}
- (b) the specific own funds requirement laid down in Section 29b imposed by Národná banka Slovenska to address risks other than the risk of excessive leverage and the combined buffer requirement.

(5) Own funds that are used to meet the recommendations communicated in accordance with paragraph 2 to address the risk of excessive leverage shall not be used by banks to meet:

- (a) the own funds requirement set out in other legislation;^{30bd}
- (b) the specific own funds requirement laid down in Section 29b imposed by Národná banka Slovenska to address the risk of excessive leverage and the leverage ratio buffer requirement.

(6) Failure to meet the recommendations on additional own funds referred to in paragraph 2 where a bank meets the relevant own funds requirements set out in other legislation,^{30ba} the specific

own funds requirement imposed pursuant to Section 50(1)(m) and, as relevant, the combined buffer requirement or the leverage ratio buffer requirement, shall not trigger the restrictions referred to in Sections 33k or 33ka.

Section 29b **Specific own funds requirement**

(1) On the basis of the review and evaluation carried out in accordance with Section 6(2), (24) and (25) and Section 33, Národná banka Slovenska shall, pursuant to Section 50(1)(m), only impose on the bank concerned a specific own funds requirement to cover the risks incurred by the bank due to its activities, including those reflecting the impact of certain economic and market developments on the bank's risk profile, if:

- (a) the bank is exposed to risks or elements of risks that are not covered or not sufficiently covered by the own funds requirements set out in other legislation;^{30ba}
- (b) the banks do not meet the requirements set out in Section 23(1) to (5) and Section 27(7) or in other legislation^{30bc} and it is unlikely that other supervisory measures imposed by Národná banka Slovenska would be sufficient to ensure that those requirements can be met within an appropriate timeframe;
- (c) the valuation adjustments referred to in Section 39 are deemed to be insufficient to enable the bank to sell or hedge out its positions within a short period without incurring material losses under normal market conditions;
- (d) the non-compliance with the requirements for the application of the internal approach under Sections 30 to 32 will, according to Národná banka Slovenska, lead to inadequate own funds requirements;
- (e) the bank repeatedly fails to establish or maintain an adequate level of additional own funds to cover the recommendation communicated in accordance with Section 29a(2); or
- (f) Národná banka Slovenska deems other bank-specific situations to raise material supervisory concerns.

(2) For the purposes of paragraph 1(a), risks or elements of risk shall only be considered as not covered or not sufficiently covered by the own funds requirements set out in other legislation^{30ba} where the amounts, types and distribution of capital considered adequate by Národná banka Slovenska, taking into account the own funds internally determined in accordance with Section 27(7), are higher than the own funds requirements set out in other legislation.^{30ba} For the purposes of the first sentence, Národná banka Slovenska shall assess, taking into account the risk profile of each individual bank, the risks and elements of such risks to which the bank concerned is exposed, including:

- (a) bank-specific risks or elements of such risks that are explicitly excluded from or not explicitly addressed by the own funds requirements set out in other legislation;^{30ba}
- (b) bank-specific risks or elements of such risks likely to be underestimated despite compliance with the applicable requirements set out in other legislation.^{30ba}

(3) For the purposes of paragraph 2, the capital considered adequate shall cover all risks or elements of risks identified as material in accordance with the second sentence of paragraph 2 that are not covered or not sufficiently covered by the own funds requirements set out in other legislation.^{30ba}

(4) Interest rate risk arising from non-trading book positions may be considered material at least in the cases referred to in Section 33(1), unless Národná banka Slovenska, in performing the review and evaluation, come to the conclusion that the bank's management of interest rate risk

arising from non-trading book activities is adequate and that the bank is not excessively exposed to interest rate risk arising from non-trading book activities.

(5) Where additional own funds are required to address risks other than the risk of excessive leverage not sufficiently covered by other legislation,^{30bd} Národná banka Slovenska shall determine the level of the specific own funds requirement under paragraph 1(a) as the difference between the own funds considered adequate pursuant to paragraph 2 and the relevant own funds requirements set out in other legislation.^{30bf}

(6) Where additional own funds are required to address the risk of excessive leverage not sufficiently covered by other legislation,^{30bd} Národná banka Slovenska shall determine the level of the specific own funds requirement under paragraph 1(a) as the difference between the own funds considered adequate pursuant to paragraph 2 and the relevant own funds requirements set out in other legislation.^{30bg}

(7) Unless paragraph 9 provides otherwise, banks shall meet the specific own funds requirement imposed by Národná banka Slovenska under Section 50(1)(m) to address risks other than the risk of excessive leverage with own funds that satisfy the following conditions:

- (a) at least three quarters of the specific own funds requirement shall be met with Tier 1 capital;
- (b) at least three quarters of the Tier 1 capital referred to in point (a) shall be composed of Common Equity Tier 1 capital.

(8) Banks shall meet the specific own funds requirement imposed by Národná banka Slovenska under Section 50(1)(m) to address the risk of excessive leverage with Tier 1 capital, unless paragraph 9 provides otherwise.

(9) Where warranted by the specific circumstances of a bank, Národná banka Slovenska may require the bank to meet its specific own funds requirement with a higher portion of Tier 1 capital or Common Equity Tier 1 capital than required under paragraphs 7 or 8.

(10) Where Národná banka Slovenska imposes on a bank a corrective measure under Section 50(1)(m) to address risks other than the risk of excessive leverage, own funds that are used to meet the specific own funds requirement shall not be used to meet any of the following:

- (a) the own funds requirement set out in other legislation;^{30bc}
- (b) the combined buffer requirement set out in Section 33a(1)(i);
- (c) the recommendation on additional own funds communicated in accordance with Section 29a to address risks other than the risk of excessive leverage.

(11) Where Národná banka Slovenska imposes on a bank a corrective measure under Section 50(1)(m) to address risk of excessive leverage not sufficiently covered by other legislation,^{30bd} own funds that are used to meet the specific own funds requirement shall not be used to meet any of the following:

- (a) the own funds requirement set out in other legislation;^{30bd}
- (b) the leverage ratio buffer requirement;
- (c) the recommendation on additional own funds communicated in accordance with Section 29a to address risks of excessive leverage.

(12) Národná banka Slovenska shall duly justify to each bank the decision to impose a corrective measure under Section 50(1)(m) imposing a specific own funds requirement, at least by giving a clear account of the full assessment of the elements referred to in paragraphs 1 to 11. Where Národná banka Slovenska imposes on a bank a corrective measure under Section 50(1)(m)

imposing a specific own funds requirement, that justification shall include, in the case set out in paragraph 1(e), a specific statement of the reasons for which the imposition of recommendation on additional own funds under Section 29a is no longer considered sufficient.

Section 29c

Národná banka Slovenska shall notify the Resolution Council of any recommendations on additional own funds communicated to banks in accordance with Section 29a(2) and of specific own funds requirements imposed on banks pursuant to Section 50(1)(m).

Section 30

(1) The use of the internal ratings-based approach for credit risk and its modification are subject to prior approval by Národná banka Slovenska. Banks, parent banks, and their banking subsidiaries shall, after obtaining prior approval from Národná banka Slovenska under other legislation,^{30c} apply the internal ratings-based approach for credit risk to all their exposures.

(2) Banks intending to implement the internal ratings-based approach for credit risk on a sequential basis shall need the prior approval of Národná banka Slovenska; sequential implementation is possible in relation to the individual classes defined in other legislation,^{30d} the bank's individual organisational units, or for the use of own estimates of loss given default or own estimates of conversion factors for the calculation of risk weights for exposures classified under other legislation.^{30e}

(3) When granting prior approval under paragraph 2, Národná banka Slovenska shall stipulate a reasonable period and conditions for the sequential use of the internal ratings-based approach for credit risk. The conditions shall be stipulated so as to ensure that, in respect of the exposure classes defined in other legislation^{30d} or the bank's organisational units, the use of the internal ratings-based approach under other legislation^{30f} is not postponed with the aim of achieving lower own funds requirements determined according to the standardised approach for credit risk for those exposure classes or those organisational units. In regard to the sequential use of own estimates of loss given default or own estimates of conversion factors^{30g} for the calculation of risk weights for exposures classified under other legislation,^{30e} Národná banka Slovenska shall proceed as according to the previous sentence.

(4) Národná banka Slovenska shall issue prior approval under paragraph 1 for banks having an appropriate system in place for the management and assignment of ratings to exposures, which satisfies the technical requirements and meets the conditions set out in other legislation.^{30h} Národná banka Slovenska shall monitor the application of such systems for managing and assigning ratings to exposures.

(5) A bank applying for prior approval from Národná banka Slovenska for the use of own estimates of loss given default or own estimates of conversion factors shall demonstrate that it has been employing own estimates of loss given default or own estimates of conversion factors in a manner defined in other legislation.^{30h}

Section 31

(1) To determine the degree of market risk, banks may use their own model for its calculation, instead of a simplified approach defined in other legislation,³⁰ⁱ or a method combined with this approach, provided that the calculation is based on the conditions laid down in other

legislation.^{30j} The use or modification of an own model shall require the prior approval of Národná banka Slovenska.

(2) Národná banka Slovenska shall issue prior approval under paragraph 1 for banks satisfying the conditions set out in other legislation.^{30j}

(3) In connection with the issuance of prior approval under paragraph 1, Národná banka Slovenska may additionally request a bank to submit a report compiled by an auditor or by another person specialising in the development or assessment of risk calculation models if the accuracy of the bank's own market risk calculation model cannot be assessed from the documents presented for the verification of compliance with the requirements laid down in other legislation.^{30j}

(4) Where the short position falls due before the long position, the bank shall take measures against the risk of a shortage of liquidity.

(5) The elements of an application for prior approval under paragraph 1 and the documents attached thereto shall be specified in a decree²³ issued by Národná banka Slovenska and promulgated in the Collection of Laws.

(6) Where a bank exceeds several multiplication factors^{30k} or fails to meet the conditions stipulated for the issuance of prior approval under paragraph 1, Národná banka Slovenska may revoke the prior approval granted or impose the necessary measures to remedy the situation. Apart from the measures referred to in Section 50, these measures may include the preparation of a recovery plan in accordance with the conditions under which the prior approval was issued, with concrete deadlines for submission and implementation. If the bank fails to submit and implement a recovery plan within the stipulated time limit, the prior approval granted under paragraph 1 shall be revoked.

Section 31a

Interest rate risk arising from non-trading book activities

(1) Banks shall implement internal systems or use a standardised methodology or use a simplified standardised methodology to identify, evaluate, manage and mitigate risks arising from possible changes in interest rates that affect the economic value of equity and net interest income from their non-trading book activities. The standardised methodology or simplified standardised methodology used by banks shall comply with other legislation on issuing regulatory technical standards issued on the basis of other legislation.^{13o}

(2) Banks shall implement internal systems to assess and monitor risks arising from potential changes in credit spreads that affect both the economic value of equity and the net interest income of a bank's non-trading book activities.

(3) Národná banka Slovenska may require a bank to use the standardised methodology referred to in paragraph 1 to manage the interest rate risk arising from non-trading book activities where the internal systems implemented by that bank for the purpose of managing the interest rate risk arising from non-trading book activities are not satisfactory.

(4) Národná banka Slovenska may require a small and non-complex bank as defined in other legislation^{30ka} to use the standardised methodology referred to in paragraph 1 to manage the interest rate risk arising from non-trading book activities where it considers that the simplified

standardised methodology referred to in paragraph 1 is not adequate to capture interest rate risk arising from non-trading book activities of that bank.

Section 32

(1) Apart from the standardised approach for operational risk, banks may also use other approaches and the corresponding indicators for operational risk under other legislation;³⁰¹ other approaches and indicators for operational risk may only be used with the prior approval of Národná banka Slovenska.

(2) Národná banka Slovenska shall issue prior approval under paragraph 1 for banks satisfying the conditions set out in other legislation.³⁰¹

Section 33

(1) Národná banka Slovenska shall impose on a bank a corrective measure in accordance with Section 50(1) or specify modelling and parametric assumptions, other than those set out in accordance with other legislation on issuing regulatory technical standards issued on the basis of other legislation,¹³⁰ at least in the following cases:

- (a) where a bank's economic value of equity declines by more than 15% of its Tier 1 capital as a result of a sudden and unexpected change in interest rates as set out in any of the six interest rate shock scenarios defined in other legislation on issuing regulatory technical standards issued on the basis of other legislation;¹³⁰
- (b) where a bank's net interest income experiences a large decline as a result of a sudden and unexpected change in interest rates as set out in any of the two interest rate shock scenarios defined in other legislation on issuing regulatory technical standards issued on the basis of other legislation.¹³⁰

(2) For the purposes of this Act, 'the economic value of a bank' means the difference between the fair value of interest rate-sensitive assets recorded in the banking book and the fair value of interest rate-sensitive liabilities recorded in the banking book; interest rate-sensitive assets and interest rate-sensitive liabilities are assets and liabilities whose fair value varies according to changes in market interest rates.

(3) In a decree²³ to be promulgated in the Collection of Laws, Národná banka Slovenska shall give a precise definition of what is meant by a 'sudden and unexpected change in market interest rates'.

(4) Where Národná banka Slovenska considers, based on the review and evaluation carried out in accordance with Section 6(2), that the bank's management of interest rate risk arising from non-trading book activities is adequate and that the bank is not excessively exposed to interest rate risk arising from non-trading book activities, it shall not be obliged to impose a corrective measure or specify other modelling and parametric assumptions as referred to in paragraph 1.

(1) Národná banka Slovenska shall identify G-SIIs in accordance with paragraph 2 on a consolidated basis and O-SIIs in accordance with paragraph 4 on an individual basis, consolidated basis, or sub-consolidated basis.

(2) Národná banka Slovenska shall identify and allocate G-SIIs into the respective subcategories according to the criteria defined in paragraph 12 and the overall score calculated according to these criteria. The criteria shall have the same weight and consist of the following quantifiable indicators:

- (a) size of the group;
- (b) interconnectedness of the group with the financial system;
- (c) substitutability of the banking services provided by the group;
- (d) complexity of the group;
- (e) cross-border activity of the group, including cross-border activity between Member States and between Member States and a third country.

(3) When categorising G-SIIs in accordance with paragraph 13(c), Národná banka Slovenska may take into account the criteria referred to in paragraph 2 and an additional overall score calculated according to additional criteria, which have the same weight and consist of quantifiable indicators. The additional criteria to determine the additional overall score are:

- (a) the criteria referred to in paragraph 2(a) to (d);
- (b) cross-border activity of the group, excluding the group's activities across participating Member States as referred to in other legislation.^{30wa}

(6) Apart from meeting the requirements imposed under Sections 33b(1) and 33c(1), banks shall also maintain an O-SII buffer on an individual, consolidated, or sub-consolidated basis, in the form of Common Equity Tier 1 capital, the amount of which may be set by Národná banka Slovenska up to 3% of the total risk exposure amount calculated in accordance with other legislation,^{30v} according to the criteria set out in paragraph 4, unless paragraph 7 provides otherwise.

(7) Subject to an authorisation granted by the Commission, Národná banka Slovenska may require an O-SII, on an individual, consolidated, or sub-consolidated basis, to maintain an O-SII buffer of at least 3% of the total risk exposure amount calculated in accordance with other legislation;^{30v} that buffer shall consist of Common Equity Tier 1 capital.

(8) Národná banka Slovenska shall set the O-SII buffer in a way that it does not entail disproportionate adverse effects on the whole or parts of the financial system of other Member States or of the Union as a whole forming or creating an obstacle to the functioning of the internal market. Národná banka Slovenska shall review the O-SII buffer at least annually.

(9) Before setting or resetting an O-SII buffer, Národná banka Slovenska shall notify the European Systemic Risk Board one month before the publication of the decision referred to in

(12) G-SIIs shall be allocated to one of the six subcategories given below. The lowest boundary and the boundaries between each subcategory shall be determined by Národná banka Slovenska on the basis of the results calculated according to the criteria referred to in paragraph 2. The cut-off results between adjacent subcategories shall be defined clearly and shall adhere to the principle that there is a constant linear increase of systemic significance between each subcategory resulting in a linear increase in the requirement of additional Common Equity Tier 1 capital, with the exception of subcategories 5 and 6. For the purposes of this paragraph, 'systemic importance' is the expected impact exerted by the G-SII's distress on the global financial market. A G-SII buffer shall be assigned as a percentage of the total risk exposure amount calculated in accordance with other legislation^{30v} as follows:

- (a) for subcategory 1: 1.0%;
- (b) for subcategory 2: 1.5%;
- (c) for subcategory 3: 2.0%;
- (d) for subcategory 4: 2.5%;
- (e) for subcategory 5: 3.0%;
- (f) for subcategory 6: 3.5%.

(13) Without prejudice to paragraphs 1 and 12, Národná banka Slovenska may:

- (a) re-allocate a G-SII from a lower subcategory to a higher subcategory;
- (b) allocate a person under Section 33a(1)(c) that has an overall result as referred to in paragraph 2 that is lower than the cut-off result of subcategory 1 under paragraph 12 to that subcategory or to a higher subcategory, thereby designating it as a G-SII;
- (c) taking into account the Single Resolution Mechanism as referred to in other legislation,^{30wb} on the basis of the additional overall result referred to in paragraph 3 re-allocate a G-SII from a higher subcategory to a lower subcategory.

(14) Národná banka Slovenska shall notify to the European Systemic Risk Board the list and names of the G-SIIs and O-SIIs and the respective subcategory to which each G-SII is allocated, and it shall also disclose this information on its website. The notification under the first sentence shall contain full reasons why the procedure set out in paragraph 12 has or has not been applied. Národná banka Slovenska shall review annually the identification of G-SIIs and O-SIIs and

the G-SII allocation into the respective subcategories and report the result to the G-SII or O-SII concerned and to the European Systemic Risk Board; the updated list of identified G-SIIs and O-SIIs and the subcategory into which each identified G-SII is allocated shall be published on the NBS website.

(15) Where a group, on a consolidated basis, is subject to a G-SII buffer and to an O-SII buffer the higher buffer shall apply.

(16) Where a bank is subject to a systemic risk buffer, set in accordance with Section 33e, that buffer shall be cumulative with the O-SII buffer or the G-SII buffer. Where the sum of the systemic risk buffer rate as calculated in accordance with Section 33e(7), (8) or (9) and the O-SII buffer rate or the G-SII buffer rate to which the same bank is subject is higher than 5%, the procedure set out in paragraph 7 shall apply.

Section 33e

(1) Národná banka Slovenska shall set a systemic risk buffer of Common Equity Tier 1 capital for banks. Národná banka Slovenska may require banks, on an individual, consolidated or sub-consolidated basis under other legislation,^{30y} to maintain the buffer referred to in the first sentence on all or a subset of exposures as referred to in paragraph 2, in order to prevent and mitigate systemic or macroprudential risks not covered by other legislation^{30x} and Sections 33c and 33d, in the meaning of a risk of disruption in the financial system with the potential to have serious negative consequences for the financial sector and the economy of the Slovak Republic. The following formula shall be used to calculate the systemic risk buffer:

$$BSR = r_T E_T + \sum_i r_i E_i$$

where:

BSR = the systemic risk buffer;

r_T = the buffer rate applicable to the total risk exposure amount of a bank;

E_T = the total risk exposure amount of a bank calculated in accordance with other legislation;^{30v}

i = the index denoting the subset of exposures as referred to in paragraph 2;

r_i = the buffer rate applicable to the risk exposure amount of the subset of exposures i ;

E_i = the risk exposure amount for the subset of exposures i calculated in accordance with other legislation.^{30v}

(2) A systemic risk buffer may apply to:

- (a) all exposures located in the Slovak Republic;
- (b) the following sectoral exposures located in the Slovak Republic:
 1. all exposures to natural persons which are secured by residential property;
 2. all exposures to legal persons which are secured by mortgages on commercial immovable property;
 3. all exposures to natural persons excluding those specified in point 1;
 4. all exposures to legal persons excluding those specified in point 2;
- (c) all exposures located in other Member States, unless paragraphs 9 and 13 provide otherwise;
- (d) sectoral exposures, as identified in point (b), located in other Member States for which Národná banka Slovenska recognised a buffer rate set in accordance with Section 33f;
- (e) exposures located in third countries;
- (f) subsets of any of the exposure categories identified in point (b).

(3) Národná banka Slovenska shall set a systemic risk buffer for all exposures, or a subset of exposures as referred to in paragraph 2, of all banks, or one or more subsets of those banks, in steps of adjustment of 0.5 percentage points. Národná banka Slovenska may introduce different systemic risk buffers for different banks and subsets of exposures. The systemic risk buffer shall not address risks that are covered by Sections 33c and 33d.

(4) When requiring a systemic risk buffer to be maintained, Národná banka Slovenska shall ensure that the systemic risk buffer does not entail disproportionate adverse effects on the whole or parts of the financial system of other Member States or of the European Union as a whole forming or creating an obstacle to the proper functioning of the internal market of the Union. Národná banka Slovenska shall review the systemic risk buffer at least every second year. The systemic risk buffer is not to be used to address risks that are covered by buffers provided for in Sections 33c and 33d.

(5) Before the publication of the notification referred to in paragraph 10, Národná banka Slovenska shall notify the European Systemic Risk Board of the setting or resetting of the systemic risk buffer rate. Where the bank to which one or more systemic risk buffer rates apply is a subsidiary the parent of which is established in another Member State, Národná banka Slovenska shall forward such notification to the competent or designated supervisory authorities of that Member State. Where the systemic risk buffer rate applies to exposures located outside of the European Union, Národná banka Slovenska shall also notify the European Systemic Risk Board. Such notification shall set out in detail:

- (a) the systemic or macroprudential risks in the Slovak Republic;
- (b) the reasons why the dimension of the systemic or macroprudential risk threatens the stability of the financial system in the Slovak Republic justifying the systemic risk buffer rate;
- (c) the justification for why the systemic risk buffer is considered likely to be effective and proportionate to mitigate the risk;
- (d) an assessment of the likely positive or negative impact of the systemic buffer on the internal market of the European Union;
- (e) the systemic risk buffer rate or rates that Národná banka Slovenska intends to impose and the exposures to which such rates shall apply and the institutions which shall be subject to such rates;
- (f) where the systemic risk buffer rate applies to all exposures, a justification of why the authority considers that the systemic risk buffer is not duplicating the functioning of the O-SII buffer provided for in Section 33d.

(6) Where the decision to set the systemic risk buffer rate results in a decrease or no change from the previously set buffer rate, Národná banka Slovenska shall only comply with paragraph 5.

(7) Where the setting or resetting of a systemic risk buffer rate on any set or subset of exposures referred to in paragraph 2 subject to one or more systemic risk buffers results in a combined systemic risk buffer rate lower than 3% for any of those exposures, Národná banka Slovenska shall notify the European Systemic Risk Board in accordance with paragraph 5 one month before the publication of the notification referred to in paragraph 10. The recognition of a systemic risk buffer rate pursuant to Section 33f shall not count towards the combined systemic risk buffer threshold as referred to in the first sentence.

(8) Where the setting or resetting of a systemic risk buffer rate on any set or subset of exposures referred to in paragraph 2 subject to one or more systemic risk buffers results in a combined systemic risk buffer rate at a level higher than 3% and up to 5% for any of those exposures, Národná banka Slovenska shall request in the notification submitted in accordance with paragraph 5 the Commission's opinion. Where the opinion of the Commission is negative, Národná

banka Slovenska shall comply with that opinion or give reasons for not doing so. Where a bank is a subsidiary the parent of which is established in another Member State, Národná banka Slovenska shall request in the notification submitted in accordance with paragraph 5 a recommendation by the Commission and the European Systemic Risk Board. Where the opinion of the competent authority or designated authority of the parent is negative and in the case of a negative recommendation of both the Commission and the European Systemic Risk Board, Národná banka Slovenska may refer the matter to the European supervisory authority (European Banking Authority) and request its assistance in accordance with other legislation¹⁹ and it shall set the systemic buffer rate in accordance with the decision of the European supervisory authority (European Banking Authority).

(9) Where the setting or resetting of a systemic risk buffer rate on any set or subset of exposures referred to in paragraph 2 subject to one or more systemic risk buffers results in a combined systemic risk buffer rate higher than 5% for any of those exposures, Národná banka Slovenska shall seek the authorisation of the Commission and set the systemic buffer rate in accordance with the Commission's decision.

(10) Národná banka Slovenska shall announce the setting or resetting of a systemic risk buffer by publication on its website. That publication shall include at least the following information:

- (a) the systemic risk buffer rate or rates;
- (b) the banks to which the systemic risk buffer applies;
- (c) the exposures to which the systemic risk buffer rate or rates apply;
- (d) a justification for setting or resetting the systemic risk buffer rate or rates;
- (e) the date from which the banks shall apply the setting or resetting of the systemic risk buffer;
- (f) the names of the countries where exposures located in those countries are subject to the systemic risk buffer.

(11) Where the publication as referred to in paragraph 10(d) could jeopardise the stability of the financial system, such information shall not be included in the publication.

(12) Where a bank fails to fully meet the requirement set out in paragraph 1, it shall be subject to the restrictions on distributions set out in Section 33k(2) and (3). Where the application of the restrictions on distributions leads to an unsatisfactory improvement of the Common Equity Tier 1 capital of the bank in the light of the relevant systemic risk, Národná banka Slovenska may take additional measures in accordance with Sections 50 and 63.

(13) Where Národná banka Slovenska decides to set the systemic risk buffer on the basis of exposures located in other Member States, the buffer shall be set equally for all Member States, unless the buffer is set in accordance with Section 33f.

Section 33f

(1) Národná banka Slovenska may recognise a systemic risk buffer rate set in accordance with Section 33e and may apply that rate to domestically authorised banks for exposures located in the Member State whose competent or designated supervisory authority sets that buffer rate.

(2) Where Národná banka Slovenska recognises a systemic risk buffer rate for banks in accordance with paragraph 1, it shall notify the European Systemic Risk Board.

(3) When deciding whether to recognise a systemic risk buffer rate, Národná banka Slovenska shall take into consideration the information presented by the Member State that sets that rate in accordance with Section 33e(5),(6) and (10).

(4) When setting a systemic risk buffer rate in accordance with Section 33e, Národná banka Slovenska may ask the European Systemic Risk Board to issue a recommendation as referred to in other legislation^{30za} to one or more Member States which may recognise the systemic risk buffer rate, to recognise the buffer rate in question.

(5) Where Národná banka Slovenska recognises a systemic risk buffer rate for banks in accordance with paragraph 1, that systemic risk buffer may be cumulative with the systemic risk buffer applied in accordance with Section 33e, provided that the buffers address different risks. Where the systemic risk buffer referred to in paragraph 1 addresses the same risks as the systemic risk buffer provided for in Section 33e, only the higher buffer shall apply.

Section 33g

(1) Národná banka Slovenska shall assess, on a quarterly basis, the intensity of cyclical systemic risk and decide on setting the countercyclical buffer rate; in so doing, it shall take into account:

- (a) the buffer guide calculated in accordance with paragraph 2 as a reference for setting the countercyclical buffer rate;
- (b) any current guidance issued by the European Systemic Risk Board;
- (c) other variables that Národná banka Slovenska considers relevant for addressing cyclical systemic risk.

(2) Národná banka Slovenska shall calculate for every quarter a buffer guide as a reference for setting the countercyclical buffer rate. In assessing the buffer guide, Národná banka Slovenska shall duly take into account the specificities of the Slovak economy with regard to:

- (a) an indicator of credit growth and the risks involved, and, in particular, the changes in the ratio of credit granted to gross domestic product;
- (b) any current guidance issued by the European Systemic Risk Board.

(3) Národná banka Slovenska shall set a countercyclical capital buffer rate, expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30v} between 0% and 2.5%, calibrated in steps of 0.25 percentage point or multiples of 0.25 percentage point. Where justified on the basis of the considerations set out in paragraph 2, Národná banka Slovenska may set a countercyclical capital buffer rate in excess of 2.5% of the total risk exposure amount calculated in accordance with other legislation^{30v} for the purposes set out in Section 33j(2).

(4) If Národná banka Slovenska sets the countercyclical buffer rate above zero for the first time or increases the prevailing countercyclical buffer rate setting, Národná banka Slovenska shall also set the date from which the banks must use that increased buffer rate for calculating their institution-specific countercyclical capital buffer. That date may be earlier than 12 calendar months after the date of announcement of the increased buffer rate only under exceptional circumstances.

(5) If Národná banka Slovenska reduces the existing countercyclical buffer rate, it shall also decide an indicative period during which no increase in the buffer rate is expected.

(6) Národná banka Slovenska shall quarterly publish on its website:

- (a) the applicable countercyclical buffer rate;
- (b) the relevant credit-to-GDP ratio and its deviation from the long-term trend;
- (c) the buffer guide calculated in accordance with paragraph 2;

- (d) a justification for that buffer rate;
- (e) where the buffer rate is increased, the date from which banks shall apply that increased buffer rate for the purpose of calculating their bank-specific countercyclical capital buffer;
- (f) where the date referred to in subparagraph (e) is less than 12 months after the date of publication under this paragraph, a justification for the shorter deadline;
- (g) where the buffer rate is decreased, the indicative period during which no increase in the buffer rate is expected, together with a justification for that period.

(7) Národná banka Slovenska shall notify each change of the countercyclical buffer rate and the required information specified in paragraph 6 to the European Systemic Risk Board.

Section 33h

(1) Where a designated authority of a Member State or of a third country sets a countercyclical buffer rate in excess of 2.5% of the total risk exposure amount calculated in accordance with other legislation,^{30v} Národná banka Slovenska may recognise that buffer rate for the calculation by domestically authorised banks of their institution-specific countercyclical capital buffer.

(2) Where Národná banka Slovenska in accordance with paragraph 1 recognises a buffer rate higher than 2.5% of the total risk exposure amount calculated under other legislation,^{30v} it shall announce that recognition by publication on its website. The announcement shall include at least the following information:

- (a) the applicable countercyclical buffer rate;
- (b) the Member State or third countries to which it applies;
- (c) where the buffer rate is increased, the date from which banks must apply that increased buffer rate for the purposes of calculating their bank-specific countercyclical capital buffer;
- (d) where the date referred to in subparagraph (c) is less than 12 months after the date of announcement under this paragraph, a justification for the shorter deadline.

Section 33i

(1) Where the designated authority of a third country fails to set a countercyclical capital buffer rate for that country, Národná banka Slovenska may set a countercyclical buffer rate for banks for the purposes of calculating their bank-specific countercyclical capital buffer.

(2) Where the designated authority of a third country has set a countercyclical buffer rate for that country but Národná banka Slovenska has justified doubts whether the countercyclical buffer rate set by that authority is sufficient to ensure adequate protection for banks against the risk of excessive credit growth in that country, Národná banka Slovenska may set a different countercyclical buffer rate for banks in that country for the purposes of calculating their bank-specific countercyclical capital buffer. The countercyclical buffer rate set by Národná banka Slovenska may not be lower than the figure set by the designated authority of that country, except for cases where the countercyclical buffer rate is higher than 2.5% of the total risk exposure amount calculated in accordance with other legislation^{30v} for banks that have credit exposures in that country.

(3) The setting of a countercyclical buffer rate under paragraph 1 or (2), above the existing countercyclical buffer rate set by the authority of that country, shall also contain the date from which banks are required to use that buffer rate for the calculation of their institution-specific countercyclical capital buffer. The date from which banks are required to use the increased

countercyclical buffer rate shall be maximum 12 calendar months from the date of the announced increase in the buffer rate in accordance with paragraph 4.

(4) Národná banka Slovenska shall publish any setting of a countercyclical capital buffer rate in accordance with paragraphs 1 or 2 on its website, and shall include the following information:

- (a) the countercyclical buffer rate;
- (b) the third country to which the rate applies;
- (c) a justification for the countercyclical buffer rate set;
- (d) where the buffer rate is set above zero for the first time or is increased, the date from which the institutions must apply that increased buffer rate for the purposes of calculating their bank-specific countercyclical capital buffer;
- (e) where the date referred to in point (d) is less than 12 months after the date of the publication of the setting under this paragraph, a justification for the shorter deadline.

Section 33j

(1) The institution-specific countercyclical capital buffer rate shall be calculated as a weighted average of the countercyclical buffer rates that apply in the countries where the relevant credit exposures of the bank are located or are applied for the purposes of Section 33i(1) or (2). In order to calculate the weighted average mentioned in the first sentence, banks shall apply to each applicable countercyclical buffer rate their total own funds requirements for credit risk, determined in accordance with other legislation,^{30zb} that relates to the relevant credit exposures in the territory in question, divided by their total own funds requirements for credit risk that relates to all of their relevant credit exposures.

(2) Where the competent supervisory authority of a Member State sets a counter-cyclical capital buffer rate in excess of 2.5% of the total risk exposure amount calculated in accordance with other legislation,^{30v} the following buffer rates shall apply to the relevant credit exposures located in that Member State for the purpose of calculating the counter-cyclical capital buffer in accordance with paragraph 1:

- (a) a countercyclical buffer rate of 2.5% of the total risk exposure amount where Národná banka Slovenska has not recognised a countercyclical buffer rate exceeding 2.5% under Section 33h(1);
- (b) the countercyclical buffer rate set by a designated authority of that Member State where Národná banka Slovenska has recognised a countercyclical buffer rate exceeding 2.5% under Section 33h.

(3) Where the competent authority of a third country sets a countercyclical capital buffer rate in excess of 2.5% of the total risk exposure amount calculated in accordance with other legislation,^{30v} the following buffer rates shall apply to the relevant credit risk exposures located in that country for the purpose of calculating the countercyclical capital buffer in accordance with paragraph 1:

- (a) a countercyclical buffer rate of 2.5% of the total risk exposure amount where Národná banka Slovenska has not recognised a countercyclical capital buffer rate exceeding 2.5% under Section 33h(1);
- (b) the countercyclical buffer rate set by a designated authority of that country where Národná banka Slovenska has recognised a countercyclical buffer rate exceeding 2.5% under Section 33h.

(4) Relevant credit risk exposures shall include all those exposure classes, other than those referred to in other legislation,^{30zc} that are subject to:

- (a) the own funds requirements for credit risk under other legislation;^{30zb}
- (b) where the exposure is held in the trading book, the own funds requirements for specific risk under other legislation^{30zd} or for incremental default and migration risk under other legislation;^{30ze}
- (c) where the exposure is a securitisation, the own funds requirements under other legislation.^{30zf}

(5) Banks shall identify the geographical location of a relevant credit risk exposure in accordance with the applicable Commission directives on the issuance of regulatory technical standards.^{30zg}

(6) For the purpose of calculating the countercyclical capital buffer in accordance with paragraph 1:

- (a) a countercyclical buffer rate for a Member State shall apply from the date specified in the information published in accordance with Section 33g(6)(e) or Section 33h(2)(c) if the effect of that decision is to increase the buffer rate;
- (b) except for the case mentioned in subparagraph (c), a countercyclical buffer rate for a third country shall apply 12 months after the date on which a change in the buffer rate was announced by the competent authority of that country, irrespective of whether that authority requires the banks established in that country to apply the change within a shorter period, if the effect of that decision is to increase the buffer rate;
- (c) where Národná banka Slovenska sets a countercyclical buffer rate for a third country under Section 33i(1) or (2), or recognises a countercyclical buffer rate for that country under Section 33h, that buffer rate shall apply from the date specified in the information published in accordance with Section 33i(4)(d) or Section 33h(2)(c), if the effect of that decision is to increase the buffer rate;
- (d) a countercyclical buffer rate shall apply immediately if the effect of the decision of Národná banka Slovenska is to reduce the buffer rate.

(7) For the purposes of paragraph 6(b), a change in the countercyclical buffer rate for a third country shall be considered to be announced on the date when it is published by the competent authority of that country in accordance with the applicable national rules.

Section 33k

(1) Banks that meet the combined buffer requirement shall be prohibited from making a distribution in connection with Common Equity Tier 1 capital to an extent that would decrease their Common Equity Tier 1 capital to a level where the combined buffer requirement is no longer met.

(2) Banks that fail to meet the combined buffer requirement shall be required to calculate the maximum distributable amount ('MDA') in accordance with paragraph 4 and to notify Národná banka Slovenska of that MDA. Such banks shall be prohibited from undertaking any of the following actions before they have calculated the MDA:

- (a) make a distribution in connection with Common Equity Tier 1 capital;
- (b) create an obligation to pay variable remuneration or discretionary pension benefits or pay variable remuneration if the obligation to pay was created at a time when the bank failed to meet the combined buffer requirement;
- (c) make payments on additional Tier 1 instruments.

(3) Where a bank fails to meet or exceed its combined buffer requirement, it shall not distribute more than the MDA calculated in accordance with paragraph 4, through any action referred to in subparagraphs (a), (b), and (c) of paragraph 2. If the bank carries out any of these actions, the MDA shall be reduced.

(4) Banks shall calculate the MDA by multiplying the sum calculated in accordance with paragraph 5 by the factor determined in accordance with paragraph 6. The MDA shall be reduced by any amount resulting from any of the actions referred to in paragraph 2.

(5) The sum to be multiplied in accordance with paragraph 4 shall consist of any interim profits not included in Common Equity Tier 1 capital pursuant to other legislation,^{30zh} net of any distribution of profits or any payment resulting from the actions referred to in paragraph 2, plus any year-end profits not included in Common Equity Tier 1 capital pursuant to other legislation^{30zh} net of any distribution of profits or any payment resulting from the actions referred to in paragraph 2, minus amounts which would be a payable tax if the interim profits and year-end profits were to be retained.

(6) The factor shall be determined as follows:

- (a) where the Common Equity Tier 1 capital maintained by the bank but not used to meet the own funds requirement under other legislation^{30bc} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement in accordance with Section 29b to address risks other than the risk of excessive leverage, expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30v} is within the first (that is, the lowest) quartile of the combined buffer requirement, the factor shall be 0;
- (b) where the Common Equity Tier 1 capital maintained by the bank but not used to meet the own funds requirement under other legislation^{30bc} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement in accordance with Section 29b to address risks other than the risk of excessive leverage, expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30v} is within the second quartile of the combined buffer requirement, the factor shall be 0.2;
- (c) where the Common Equity Tier 1 capital maintained by the bank but not used to meet the own funds requirement under other legislation^{30bc} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement in accordance with Section 29b to address risks other than the risk of excessive leverage, expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30v} is within the third quartile of the combined buffer requirement, the factor shall be 0.4;
- (d) where the Common Equity Tier 1 capital maintained by the bank but not used to meet the own funds requirement under other legislation^{30bc} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement in accordance with Section 29b to address risks other than the risk of excessive leverage, expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30v} is within the fourth (that is, the highest) quartile of the combined buffer requirement or is higher than the upper bound of the fourth quartile, the factor shall be 0.6.

(7) The lower bound of the quartile of the combined buffer requirement shall be calculated as follows:

$$\text{Lower bound of quartile} = \frac{\text{Combined buffer requirement}}{4} \times (Qn - 1)$$

“Qn” indicates the ordinal number of the quartile concerned.

(8) The upper bound of the quartile of the combined buffer requirement shall be calculated as follows:

$$\text{Upper bound of quartile} = \frac{\text{Combined buffer requirement}}{4} \times Q_n$$

“Qn” indicates the ordinal number of the quartile concerned.

(9) For the purposes of paragraphs 1 and 2, a distribution in connection with Common Equity Tier 1 capital shall include the following:

- (a) a payment of cash dividends;
- (b) a distribution of fully or partly paid bonus shares or other capital instruments referred to in other legislation;^{30zj}
- (c) a redemption or purchase by a bank of its own shares or other capital instruments referred to in other legislation;^{30zj}
- (d) a repayment of amounts paid up in connection with capital instruments referred to in other legislation;^{30zj}
- (e) a distribution of items referred to in other legislation.^{30zk}

(10) Where a bank fails to meet the combined buffer requirement and intends to distribute any of its distributable profits or undertake an action referred to in paragraph 2, it shall notify Národná banka Slovenska and provide the following information:

- (a) the amount of capital maintained by the bank, subdivided as follows:
 1. Common Equity Tier 1 capital;
 2. additional Tier 1 capital;
 3. Tier 2 capital;
- (b) the amount of the bank’s interim and year-end profits;
- (c) the maximum distributable amount calculated in accordance with paragraph 4;
- (d) the amount of distributable profits the bank intends to allocate between the following:
 1. dividend payments;
 2. share buy-backs;
 3. payments in connection with additional Tier 1 instruments;
 4. the payment of variable remuneration or discretionary pension benefits, whether by creation of a new obligation to pay, or payment under an obligation to pay created at a time when the bank failed to meet its combined buffer requirement.

(11) Banks shall maintain arrangements to ensure that the amount of distributable profits and the maximum distributable amount are calculated accurately and shall be able to demonstrate that accuracy to Národná banka Slovenska on request.

(12) The restrictions imposed under paragraphs 1 to 11 of this Section shall only apply to payments that result in a reduction of Common Equity Tier 1 capital or in a reduction of profits, and where a suspension of payments or failure to pay does not constitute an event of default or a condition for the commencement of proceedings under the insolvency regime applicable to banks.

(13) A bank shall be considered as failing to meet the combined buffer requirement where it does not have own funds in an amount and of the quality needed to meet at the same time the combined buffer requirement and each of the following requirements in:

- (a) other legislation^{30zka} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement communicated in accordance with Section 29b to address risks other than the risk of excessive leverage;
- (b) other legislation^{30zkb} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement communicated in accordance with Section 29b to address risks other than the risk of excessive leverage;
- (c) other legislation^{30zkc} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement communicated in accordance with Section 29b to address risks other than the risk of excessive leverage.

Section 33ka

Taking effect as from 1 January 2022

(1) A bank that meets the combined buffer requirement shall not make a distribution in connection with Tier 1 capital to an extent that would decrease its Tier 1 capital to a level where the combined buffer requirement is no longer met.

(2) A bank that fails to meet the leverage ratio buffer requirement shall calculate the maximum distributable amount (MDA) related to the leverage ratio in accordance with paragraph 4 and shall notify Národná banka Slovenska. The bank shall not undertake any of the following actions before it has calculated the MDA related to the leverage ratio:

- (a) make a distribution in connection with Common Equity Tier 1 capital;*
- (b) create an obligation to pay variable remuneration or discretionary pension benefits or pay variable remuneration if the obligation to pay was created at a time when the bank failed to meet the leverage ratio buffer requirement; or*
- (c) make payments on Additional Tier 1 instruments.*

(3) Where a bank fails to meet or exceeds its leverage ratio buffer requirement, it shall not distribute more than the MDA related to the leverage ratio calculated in accordance with paragraph 4 through any action referred to in paragraph 2. Where the bank undertakes any of the actions referred to in paragraph 2, the MDA related to the leverage ratio shall be reduced.

(4) Banks shall calculate the MDA related to the leverage ratio by multiplying the sum calculated in accordance with paragraph 5 by the factor determined in accordance with paragraph 6. The MDA related to the leverage ratio shall be reduced by any amount resulting from any of the actions referred to in the second sentence of paragraph 2.

(5) The sum to be multiplied in accordance with paragraph 4 shall consist of any interim profits not included in Common Equity Tier 1 capital pursuant to other legislation,^{30zh} net of any distribution of profits or any payment resulting from the actions referred to in the second sentence of paragraph 2, plus any year-end profits not included in Common Equity Tier 1 capital pursuant to other legislation^{30zh} net of any distribution of profits or any payment resulting from the actions referred to in paragraph 2, minus amounts which would be payable by tax if the interim profits and year-end profits were to be retained.

(6) The factor shall be determined as follows:

- (a) where the Tier 1 capital maintained by the bank which is not used to meet the own funds requirement set out in other legislation^{30bd} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement under Section 29b, if the risk of excessive leverage is not sufficiently covered under other legislation,^{30bd} expressed as a percentage of the total risk*

- exposure amount calculated in accordance with other legislation,^{30zkd} is within the first quartile of the leverage ratio buffer requirement, the factor shall be 0;
- (b) where the Tier 1 capital maintained by the bank which is not used to meet the own funds requirement set out in other legislation^{30bd} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement under Section 29b, if the risk of excessive leverage is not sufficiently covered under other legislation,^{30bd} expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30zkd} is within the second quartile of the leverage ratio buffer requirement, the factor shall be 0.2;
- (c) where the Tier 1 capital maintained by the bank which is not used to meet the own funds requirement set out in other legislation^{30bd} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement under Section 29b, if the risk of excessive leverage is not sufficiently covered under other legislation,^{30bd} expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30zkd} is within the third quartile of the leverage ratio buffer requirement, the factor shall be 0.4;
- (d) where the Tier 1 capital maintained by the bank which is not used to meet the own funds requirement set out in other legislation^{30bd} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement under Section 29b, if the risk of excessive leverage is not sufficiently covered under other legislation,^{30bd} expressed as a percentage of the total risk exposure amount calculated in accordance with other legislation,^{30zkd} is within the fourth quartile of the leverage ratio buffer requirement or is higher than the upper bound of the fourth quartile, the factor shall be 0.6.

(7) The lower bound of each quartile of the leverage ratio buffer requirement shall be calculated as follows:

$$\text{Lower bound of quartile} = \frac{\text{Leverage ratio buffer requirement}}{4} \times (Q_n - 1)$$

“Qn” indicates the ordinal number of the quartile concerned.

(8) The upper bound of each quartile of the leverage ratio buffer requirement shall be calculated as follows:

$$\text{Upper bound of quartile} = \frac{\text{Leverage ratio buffer requirement}}{4} \times Q_n$$

“Qn” indicates the ordinal number of the quartile concerned.

(9) For the purposes of paragraphs 1 and 2, the provisions set out in Section 33(9) shall be applied to the distribution of Tier 1 capital.

The notification shall include the information referred to in Section 33k(10), with the exception of the information referred to in point 3 of Section 33k(10)(a), and the MDA related to the leverage ratio calculated in accordance with paragraph 4.

(11) Banks shall maintain arrangements to ensure that the amount of distributable profits and the MDA related to the leverage ratio are calculated accurately and shall demonstrate that accuracy to Národná banka Slovenska on request.

(12) *The restrictions imposed by paragraphs 1 to 11 shall only apply to payments that result in a reduction of Tier 1 capital or in a reduction of profits, and where a suspension of payment or failure to pay does not constitute an event of default or a condition for the commencement of proceedings under the insolvency regime applicable to the bank.*

(13) *A bank shall be considered as failing to meet the leverage ratio buffer requirement for the purposes of paragraphs 1 to 12 where it does not maintain Tier 1 capital in an amount needed to meet at the same time the leverage ratio buffer requirement, the requirement in other legislation^{30bd} and the corrective measure under Section 50(1)(m) imposing a specific own funds requirement under Section 29b, if the risk of excessive leverage is not sufficiently covered by the requirement set out in other legislation.^{30bd}*

(4) If Národná banka Slovenska does not approve the capital conservation plan in accordance with paragraph 3, it shall impose one or all of the following:

- (a) require the bank to increase its own funds to a specified level within a specified period;

- (v) an analysis of how and when the bank may apply, in the conditions addressed by the plan, for the use of liquidity-providing central bank facilities, and identification of those assets which would be expected to qualify as collateral.

(3) Banks shall monitor the indicators referred to in paragraph 2(t) on a regular basis. The statutory body of a bank may, where it considers it appropriate, decide to:

- (a) take action under the recovery plan even if the relevant indicator has not been met;
- (b) refrain from taking an action under the recovery plan even if the relevant indicator has been met.

(4) Decisions taken under paragraph 3 and their reasoning shall be notified by the bank to Národná banka Slovenska without undue delay.

(5) Recovery plans shall not assume any access to or receipt of extraordinary public financial support.

(6) Recovery plans shall include appropriate procedures to ensure the timely implementation of recovery actions and shall specify the recovery options available to the bank. Recovery plans shall contemplate an as wide as possible range of scenarios of macroeconomic and financial stress to which the bank may be exposed to in view of the nature of banking activities carried out, including system-wide events and stress specific to individual legal persons and to groups of legal persons.

(7) Recovery plans are subject to approval by the bank's statutory body, and, after being approved, are to be submitted by the bank to Národná banka Slovenska for review.

(8) Banks shall update their recovery plans at least annually or after a change to the bank's organisational structure, its business or its financial situation, which could have a material effect on the recovery plan; in updating their recovery plans, banks shall proceed in accordance with paragraph 7. Národná banka Slovenska may require banks to update their recovery plans more frequently than once a year.

Section 33p

(1) Banks shall submit their recovery plans to Národná banka Slovenska for review within five working days after the plan was approved in accordance with Section 33o(7). Národná banka Slovenska shall assess whether:

- (a) the plan contains all the elements mentioned in Section 33o(2) and (6);
- (b) the implementation of the arrangements proposed in the plan is reasonably likely to maintain or restore the viability and financial position of the bank or of the group, taking into account the preparatory measures that the bank has taken or is planning to take to facilitate implementation of its plan;
- (c) the plan is reasonably likely to be implemented quickly and effectively in situations of financial stress and avoiding to the maximum extent possible any significant adverse effect on the financial system, including in scenarios which would lead other banks and investment firms to implement recovery plans within the same period.

(2) When reviewing recovery plans, Národná banka Slovenska shall take into consideration the appropriateness of the bank's capital and funding structure to the level of complexity of the bank's organisational structure and risk profile.

(3) Národná banka Slovenska shall deliver its opinion on the recovery plan within six months of the plan's submission under paragraph 1. If the bank concerned has a significant branch established in another Member State and the recovery plan includes arrangements related to that branch, Národná banka Slovenska shall deliver its opinion on the plan after consulting the competent supervisory authority of that Member State.

(4) Within five working days of a recovery plan's submission under paragraph 1, Národná banka Slovenska shall provide the recovery plan to the Resolution Council for review. If the Resolution Council identifies any actions in the recovery plan which may adversely impact the resolvability of the bank, it shall notify Národná banka Slovenska of this fact. Such notification of the Resolution Council is recommendatory in character.

(5) If Národná banka Slovenska finds that a bank's recovery plan does not meet the requirements laid down in paragraph 1, it shall notify the bank of this fact and shall request the bank to give its opinion on the plan's deficiencies within a time limit set by Národná banka Slovenska; after receiving the bank's opinion, Národná banka Slovenska shall require the bank to remove the deficiencies within two months. Národná banka Slovenska may, at the bank's request, extend the time limit mentioned in the previous sentence by up to one month.

(6) If a bank fails to remove the deficiencies mentioned in paragraph 5, Národná banka Slovenska may require the bank to make specific changes to the recovery plan.

(7) If the bank fails to submit the recovery plan to Národná banka Slovenska within the timeframe under paragraph 5, or, after receiving the notification under paragraph 6, submits a recovery plan that still does not meet the requirements laid down in paragraph 1, Národná banka Slovenska shall require the bank to propose within a specified timeframe changes the bank can make to its business in order to address the deficiencies in the recovery plan.

(8) If the bank fails within the specified timeframe to propose changes referred to in paragraph 7, or if Národná banka Slovenska assesses that the actions proposed by the bank would not adequately address the deficiencies in the recovery plan, Národná banka Slovenska may impose measures under Section 50 and direct the bank to:

- (a) reduce its risk profile, including liquidity risk;
- (b) enable timely recapitalisation measures;
- (c) modify its strategy and structure;
- (d) modify its funding strategy so as to improve the resilience of its core business lines and critical functions; for the purposes of this Act, ‘core business lines’ means business lines which represent material sources of revenue, profit or intellectual property value for the bank or its group; ‘critical functions’ means activities, services or operations performed or provided by the bank the discontinuance of which is likely to lead to the disruption of the functioning of the real economy or its financial stability due to the size, market share, external and internal interconnectedness, complexity or range of cross-border activities of the bank or its group, with particular regard to the substitutability of those activities, services or operations;
- (e) modify its governance structure.

(9) The imposition of measures and obligations under paragraph 8 is subject to the provisions of another act.⁸⁹

Section 33q

(1) Banks that are group-level parent undertakings^{30zy} shall draw up and submit to Národná banka Slovenska a recovery plan for the group (hereinafter ‘group recovery plan’). Such group recovery plan is to be approved by the bank’s statutory body. The group recovery plan shall be submitted to Národná banka Slovenska for comments within the time limit specified in Section 33p(1).

(2) Národná banka Slovenska shall submit a group recovery plan to:

- (a) other Member State’s competent supervisory authority responsible for supervision of a banking subsidiary which is a foreign bank, as well as to the College;
- (b) the competent supervisory authority of each Member State in which a significant foreign bank branch is located if the group recovery plan contains measures relating to that branch;
- (c) the Resolution Council;
- (d) the resolution authorities responsible for the resolution of banking subsidiaries pursuant to another act.^{30zz}

(3) A group recovery plan is designed to set out the measures to be taken by a bank that is a parent undertaking and by the group members. The purpose of a group recovery plan is to stabilise the group as a whole or the bank’s subsidiaries in a stress situation, to resolve or eliminate the causes of the stress situation, and to restore the financial position of the group as a whole or of its members, with regard to the financial positions of the other members of the group.

(4) A group recovery plan shall contain the elements specified in Section 33o(2) and (6) in relation to the group and the individual subsidiaries, as well as a group financial support agreement if such agreement has been concluded.

(5) A group recovery plan shall specify for each scenario of severe macroeconomic and financial stress whether there are any impediments to the implementation of measures within the group as well as at the level of individual group entities to which the recovery plan applies, and whether there are material practical or legal impediments to the prompt transfer of own funds or repayment of liabilities or claims within the group.

Section 33r

(1) Národná banka Slovenska as a consolidating supervisor shall, jointly with the competent supervisory authorities of non-resident banking subsidiaries and after consulting the supervisory authorities of significant branches, make every effort to reach a joint decision within four months of the submission of a group recovery plan pursuant to Section 33q(2) in respect of:

- (a) the approval of the group recovery plan submitted;
- (b) the requirement that an individual recovery plan be drawn up by a subsidiary;
- (c) the procedure to be followed in accordance with Section 33p(5);
- (d) the procedure to be followed in accordance with Section 33p(6);
- (e) the procedure to be followed in accordance with Section 33p(7);
- (f) the imposition of a measure in accordance with Section 33p(8).

(2) The assessment of a group recovery plan is equally subject to the provisions of Section 33p. Národná banka Slovenska shall, working closely with the competent supervisory authorities of non-resident banking subsidiaries, assess the impact of the recovery measures proposed in the recovery plan on financial stability in the Member States where the parent undertaking and its subsidiaries are established.

(3) If, within the period specified in paragraph 1, any of the supervisory authorities mentioned in paragraph 1 requests assistance from the European supervisory authority (European Banking Authority) to reach an agreement in any of the matters referred to in paragraph 1(a) and in Section 33p(8)(a), (b) and (d) pursuant to other legislation,^{30zza} Národná banka Slovenska shall await the relevant decision of the European supervisory authority (European Banking Authority) by which Národná banka Slovenska is bound. If the European supervisory authority (European Banking Authority) fails to issue such decision within one month of receipt of the request for assistance or if none of the supervisory authorities mentioned in paragraph 1 has requested assistance from the European supervisory authority (European Banking Authority) to reach an agreement and Národná banka Slovenska fails to reach a joint decision with the supervisory authorities mentioned in paragraph 1, Národná banka Slovenska shall issue a decision on its own, taking into account the opinions of the supervisory authorities referred to in paragraph 1. Národná banka Slovenska shall deliver its decision to the supervisory authorities mentioned in paragraph 1, as well as to the bank concerned.

(4) If, within the period specified in paragraph 1, Národná banka Slovenska fails to reach a joint decision with the supervisory authorities mentioned in paragraph 1 in any of the matters referred to in paragraph 1(b) to (f) in relation to a bank as a parent undertaking and its subsidiaries, Národná banka Slovenska shall take a decision in these matters only in respect of the parent undertaking. Before the expiry of the period defined in paragraph 1, Národná banka Slovenska may request assistance from the European supervisory authority (European Banking Authority) to reach an agreement in any of the matters referred to in paragraph 1(a) and in Section 33p(8), (a), (b) and (d) pursuant to other legislation.¹⁹ If Národná banka Slovenska proceeds according to the second

sentence, it shall await the decision of the European supervisory authority (European Banking Authority). If the European supervisory authority (European Banking Authority) fails to issue such decision within one month of receipt of the request for assistance, Národná banka Slovenska shall take a decision on its own.

(5) Where Národná banka Slovenska exercises supervision over a banking subsidiary that is part of a group, it will be equally subject to the provisions of paragraphs 1 and 2. In examining the group's recovery plan, Národná banka Slovenska shall assess compliance with the relevant requirements in accordance with Section 33o(2) and (6) in the range specified in the group recovery plan, taking into account the effects the recovery measures proposed in the group recovery plan may have on financial stability.

(6) Národná banka Slovenska may request assistance from the European supervisory authority (European Banking Authority) in any of the matters referred to in Section 33p(8)(a), (b) and (d) under other legislation¹⁹ and, if the European supervisory authority (European Banking Authority) issues a decision under other legislation,¹⁹ Národná banka Slovenska will be bound by that decision. If a joint decision is not reached within the time limit specified in paragraph 1, Národná banka Slovenska may take its own decision in respect of a bank over which it exercises supervision, in accordance with paragraph 1(b), (e) and (f).

(7) Joint decisions made between Národná banka Slovenska and the supervisory authorities referred to in paragraph 1 are binding for banks that are subject to supervision on a consolidated basis.

Section 33s **Principle of proportionality**

(1) Národná banka Slovenska may, on its own initiative, reduce proportionally the range of requirements laid down in Sections 33o and 33q and to set a different time limit for the preparation of a recovery plan and a different interval for its updating, while taking into account the potential impact of failure by the bank on the financial system, other financial and non-financial institutions, the terms and conditions of their financing, and on the economy as a whole. In so doing, Národná banka Slovenska shall take into account the nature and complexity of the bank's activities, its shareholding structure, risk profile, size and legal position, interconnectedness with other participants of the financial system, and membership of an institutional protection system or other similar system under another act,^{26g} as well as the investment services provided by that bank. In the case of any change in the circumstances, Národná banka Slovenska may request the bank to draw up a recovery plan in the range specified in Sections 33o and 33q and to regularly update it in accordance with Section 33o(8).

(2) Národná banka Slovenska shall inform the European supervisory authority (European Banking Authority) as to whether it applied the procedure set out in paragraph 1 and about the details of that procedure.

Section 33t **Intragroup financial support agreement**

(1) A parent bank, an EU parent bank, a financial holding company, a mixed financial holding company, a mixed-activity holding company established in the Slovak Republic, a parent financial holding company, an EU parent financial holding company, a parent mixed financial holding company, an EU parent mixed financial holding company and their subsidiaries that are banks or financial institutions subject to consolidated supervision under this Act (hereinafter 'sub-group') may conclude an agreement to provide financial support to one or more members of the

sub-group where, under the terms set out in paragraphs 2 to 7 and in Sections 33u to 33z, there are satisfied the conditions for the imposition of an early intervention measure as defined in Section 65(1) or of a comparable measure under the law of the Member State in which the party concerned is established (hereinafter 'group financial support agreement'). Such financial support may be provided in the form of a loan, guarantee or assets used as collateral (hereinafter 'group financial support'). The recipient of group financial support shall be entitled to use such support even in transactions with persons that are not parties to the group financial support agreement.

(2) The provisions of paragraphs 3 to 7 and Sections 33o to 33z do not apply to the financing arrangements made between the members of a sub-group if none of the parties to these financing arrangements meets the conditions for the imposition of an early intervention measure as defined in Section 65a(1) or of a comparable measure under the law of the Member State in which the sub-group member concerned is established.

(3) Without prejudice to the other conditions set out in paragraphs 2, 4 to 7 and in Sections 33s to 33y, group financial support may also be provided without a group financial support agreement signed in advance where such action is in accordance with the internal rules of the group concerned and if the member of the sub-group intending to provide such support assesses that the provision of group financial support is necessary and represents no risk for the group. The sub-group member shall, without delay, inform Národná banka Slovenska of the provision of group financial support if the relevant group is subject to supervision under this Act or to consolidated supervision.

(4) A group financial support agreement may contain a clause under which a sub-group member receiving group financial support undertakes to provide such support to the sub-group member providing the support in question.

(5) A group financial support agreement may only be concluded if:

- (a) each party is acting freely in entering into such agreement;
- (b) the agreement sets out principles for determining the consideration to be paid for the provision of group financial support;
- (c) the value of consideration is determined no earlier than at the time when a decision to provide group financial support is adopted;
- (d) in entering into such agreement and in determining the consideration for the provision of group financial support, each party is acting in their own best interests which may take account of any direct or indirect benefit that may accrue to a party as a result of the provision of group financial support;
- (e) each party providing group financial support must have full disclosure of relevant information from any party receiving such support prior to determination of the consideration for the provision of group financial support and prior to any decision to provide group financial support;
- (f) the conditions for the provision of group financial support are stipulated in accordance with the requirements of Section 33w;
- (g) the consideration to be paid for the provision of group financial support may take account of information in the possession of the party providing such support based on it being in the same group as the party receiving group financial support and which is not available to the public;
- (h) the principles for the calculation of the consideration to be paid for the provision of group financial support must not take account of any anticipated temporary impact on market prices arising from events external to the group.

(6) A group financial support agreement may only be concluded if, at the time the proposed agreement is made, in the opinion of their respective supervisory authorities, none of the parties meets the conditions for the imposition of a measure in accordance with Section 65a(1) or a comparable measure under the law of the Member State in which the party concerned is established.

(7) Rights arising from a group financial support agreement are to be exercised by the contracting parties on their own, without taking account of the contractual rights of third persons.

(8) Under a group financial support agreement, group financial support may be provided to one or more subsidiaries belonging to the same group. Group financial support may also be provided by a parent undertaking to its subsidiary or by a subsidiary to its parent undertaking under a group financial support agreement.

Section 33u

Heading repealed as from 1 January 2016

(1) If the members of a group agree to conclude a group financial support agreement, the parent undertaking^{30zzaa} shall submit an application to Národná banka Slovenska, which exercises supervision over that bank on a consolidated basis, for the approval of the draft group financial support agreement. Apart from the elements prescribed in another act,⁸⁹ such application must contain a description of, and justification for, each of the conditions stipulated for conclusion of a group financial support agreement and the relevant documents confirming that the conditions have been met. The draft financial support agreement, including the names of the group members who will be parties to the agreement, is to be attached to the application, too.

(2) If Národná banka Slovenska as a consolidating supervisor receives an application as referred to in paragraph 1, it shall send an original copy of that application to the supervisory authorities of the persons that will be parties to a group financial support agreement.

(3) Národná banka Slovenska shall, in its capacity as a consolidating supervisor, make every effort to reach a joint decision with the supervisory authorities referred to in paragraph 2 as to whether a group financial support agreement satisfies the conditions set out in Sections 33t and 33w, taking into account the possible consequences of that decision, including the fiscal consequences of group financial support provided in the Member States in which the relevant group operates. Národná banka Slovenska shall decide in respect of an application as referred to paragraph 1 within four months of receipt of that application. If the proposed group financial support agreement complies with the conditions laid down in Sections 33t and 33w, Národná banka Slovenska shall approve the group financial support agreement proposed; otherwise, the application is to be rejected. If a joint decision cannot be reached within the time limit specified in the second sentence, Národná banka Slovenska shall decide in respect of the application on its own, taking into account the opinions and comments of the supervisory authorities mentioned in paragraph 2. In that case, Národná banka Slovenska shall deliver a copy of its decision to the supervisory authorities referred to in paragraph 2, as well as to the parent bank.

(4) Prior to the expiry of the time limit specified in paragraph 3 for reaching a joint decision under paragraph 3, Národná banka Slovenska may, in its capacity as a supervisory authority in charge of supervision on the consolidated basis, request assistance from the European supervisory authority (European Banking Authority) under other legislation.

(5) If, before a joint decision is reached pursuant to paragraph 3, Národná banka Slovenska as a consolidating supervisor or any of the supervisory authorities referred to in paragraph 3

requests assistance from the European supervisory authority (European Banking Authority) to reach an agreement in accordance with other legislation, Národná banka Slovenska shall await the decision of the European supervisory authority (European Banking Authority) by which Národná banka Slovenska is bound.

(6) The obligation to make every effort to reach a joint decision under paragraph 3 applies *mutatis mutandis* where Národná banka Slovenska has received, from another Member State's consolidating supervisor, an original copy of an application for approval of a group financial support agreement. Národná banka Slovenska may request assistance from the European supervisory authority (European Banking Authority) to reach an agreement under other legislation.

(7) A joint decision reached between Národná banka Slovenska and the supervisory authorities referred to in paragraph 3 is binding for the parties to a group financial support agreement.

(8) Národná banka Slovenska shall submit to the Council a copy of each group financial support agreement it has approved, as well as a copy of any amendment thereto.

Section 33v

Approval of group financial support agreement by shareholders

(1) After a draft group financial support agreement is approved pursuant to Section 33u, the parties to the agreement shall submit the draft to the general meeting of shareholders for approval. The group financial support agreement shall enter into force only if approved by the general meeting, which shall authorise the statutory body to decide to accept or provide group financial support in accordance with the terms of the agreement and the provisions of Sections 33t to 33z. If the authorisation granted to the statutory body to accept or provide group financial support is revoked, the agreement shall become invalid.

- (a) whose registered office is located in a country where there are legal impediments to the exchange of information for the purpose of exercising supervision on a consolidated basis;

(5) In the cases mentioned in paragraphs 2, 3 and 4, Národná banka Slovenska may, by common written agreement with the other Member States' competent supervisory authorities, waive the conditions laid down in these paragraphs if their application would be inappropriate in regard to the nature of the banks and the significance of their activities in different countries or if it is necessary to ensure continuity of supervision on a consolidated basis by the same supervisory authority of another Member State, and appoint the competent supervisory authority of another Member State to exercise supervision on a consolidated basis. In these cases, Národná banka Slovenska shall, if necessary, give the EU parent bank or EU parent financial holding company or EU parent mixed financial holding company or the bank with the largest balance sheet total an opportunity to state its opinion on the decision proposed in cooperation with the other Member States' competent supervisory authorities.

(2) Activities in different financial sectors are deemed to be significant if, for the given sector, the average of the following ratios exceeds 10%:

- (a) the ratio of the balance sheet total of that financial sector to the balance sheet total of the financial sector entities in the group; and
- (b) the ratio of minimum own funds requirements of the same financial sector to the total minimum own funds requirements of the financial sector entities in the group.

(3) The smallest financial sector in a financial conglomerate is the sector with the smallest average under paragraph 2 and the most important financial sector in a financial conglomerate is the sector with the highest average under paragraph 2. For the purposes of calculating the average under paragraph 2 and for the measurement of the smallest and the most important financial sectors, the banking sector and the investment services sector shall be considered together.

(4) Where a group fails to reach the average referred to in paragraph 2 but total assets in the smallest financial sector in the group amount to more than EUR 6,000,000,000, or where a group reaches the average referred to in paragraph 2 but total assets in the smallest financial sector in the group amount to less than EUR 6,000,000,000, Národná banka Slovenska may decide, upon agreement with the competent supervisory authorities of other Member States which are responsible for the supervision of regulated entities belonging to a financial conglomerate, not to regard the group as a financial conglomerate or that the provisions of Sections 49g to 49j shall not apply where the exercise of supplementary supervision is inappropriate with respect to the objectives of supplementary supervision.

third country to avoid supervision;

(b) is of negligible interest with respect to supplementary supervision;

(c) is unsuitable for being included in a financial conglomerate with respect to the objectives of supplementary supervision.

(8) Národná banka Slovenska may, in fully justified cases and after consulting the competent supervisory authorities of other Member States which are responsible for the supervision of regulated entities belonging to a financial conglomerate, replace or supplement the criterion based on total assets with one or more criteria based on the structure of revenues, total assets under management, or off-balance-sheet operations in the calculation of the ratios referred to in paragraphs 1 and 2, or add one or more criteria of special importance with respect to the objectives of supplementary supervision.

(10) If, in the case of a group which is already under supplementary supervision, total assets in the group's smallest financial sector fall below EUR 6,000,000,000, the amount to be used in calculations under paragraph 4 shall be EUR 5,000,000,000 for the next three years.

(11) Národná banka Slovenska may, with the consent of the competent supervisory authorities of other Member States which are responsible for the supervision of regulated entities belonging to a financial conglomerate and during the period set in paragraphs 7 to 10, stipulate that the lower ratios or the smaller amount given in paragraphs 7 to 10 are no longer valid for financial conglomerates which are subject to supplementary supervision.

(12) Total assets shall be calculated as the sum of total assets held by persons in a group on the basis of their individual annual financial statements. In the case of persons in which a holding has been acquired, the amount of the acquired holding shall be taken into account for the purposes of such calculations. Where consolidated financial statements are available, such statements shall be used instead of the individual financial statements.

(14) Requirements for the minimum amount of own funds of regulated entities other than banks, which are taken into account in the calculations under paragraphs 2 to 6, are stipulated in other acts,^{45b} which apply to the calculation of capital requirements, own funds and solvency requirements for the regulated entity concerned.

(13) Národná banka Slovenska shall be entitled to require a bank or a foreign bank branch to maintain a specified scope of assets in the prescribed amount also when this is necessary owing to objective circumstances related to financial markets, the effect of which may impair the stability of the financial market or disrupt its credibility.

(14) Where a bank or a foreign bank branch reports^{48b} to Národná banka Slovenska that the stress-test results materially exceed the own funds requirement for the correlation trading portfolio, Národná banka Slovenska may impose additional own funds requirements for the coverage of specific risks to the correlation trading portfolio.

(15) Národná banka Slovenska shall publish on its official website, for a period of at least five years,^{48c} information on the corrective measures and penalties imposed under paragraphs 1, 2, 7 and Sections 51(1), 51a(1) and (2), and 52(1), against which there is no appeal, without undue delay after the bank, foreign bank branch, mixed financial holding company or person concerned is informed of those corrective measure or penalties.

(16) Národná banka Slovenska shall publish information in accordance with paragraph 15 mainly on the type of the corrective measure or fine imposed; the nature of the breach; the business name, registered office, and identification number of the bank, foreign bank branch or mixed financial holding company, or the full name, permanent residence address, or business name, registered office, and identification number of the person on whom a corrective measure or fine has been imposed. Information pursuant to the first sentence shall be published in accordance with other acts.^{48d}

(17) Information under paragraph 16 shall be published anonymously where:

- (a) the person concerned is a natural person, since personal data disclosure is unlawful;
- (b) there is a justified risk to financial market stability, or an examination is underway under another act;^{48e}
- (c) there is a justified risk that disproportionate damage may be caused to the bank or natural person involved.

(18) Národná banka Slovenska may impose the obligation referred to in paragraph 1(d) even if the bank's financial position has worsened substantially, if the entity concerned has seriously violated the applicable legislation or the bank's articles of association or failed to fulfil any of its tasks.

(19) Immediately after issuing a decision under this Section, adopting a crisis prevention measure^{48f} or after the delivery of the notification,^{48g} Národná banka Slovenska shall send the decision or notification to the Resolution Council. The Resolution Council may require the bank concerned to enter into negotiations with potential purchasers of the bank, or of any part thereof, taking into consideration the conditions stipulated in another act.^{48h}

(20) Národná banka Slovenska shall be entitled to verify that the bank's statutory body members and supervisory board members meet the requirements set out in Section 7(14) and (15), Section 24 and Section 25(1) to (3), (8) to (11) and (14) to (16), where it has reasonable grounds to suspect that the bank is in breach of, breached or attempted to breach the provisions of other legislation,^{21a} or there is an elevated risk of breaching these provisions. Where a statutory body member or supervisory board member does not meet the requirements referred to in the first sentence, Národná banka Slovenska shall be entitled to require such member to be replaced.

(21) Where Národná banka Slovenska identifies deficiencies in the activities of a parent institution, parent financial holding company or parent mixed financial holding company consisting of non-compliance with the conditions specified in an approval granted in accordance with Section 20a, conditions or requirements laid down in other decisions of Národná banka Slovenska imposed on the parent institution, parent financial holding company or parent mixed financial holding companies in accordance with Section 20a, or non-compliance with or circumvention of the provisions of Section 20a, other provisions of this Act and of other legislation⁴⁸ⁱ on a consolidated or sub-consolidated basis, it may, depending on the severity, extent, duration, consequences and nature of the identified deficiencies apply mutatis mutandi the measures referred to in paragraphs 1, 2, 7, 9, 10 and 15 to 17.

(22) A duplicative information means any additional information that may be produced by Národná banka Slovenska or that has already been otherwise reported to it by a bank or a foreign bank branch in a different format or level of granularity and that different format or granularity does not prevent Národná banka Slovenska from producing information of the same quality and reliability as that produced on the basis of the additional information that would be otherwise reported.

Section 50a

Národná banka Slovenska shall preserve the anonymity of an employee, manager, statutory body or supervisory board member of a bank, or the anonymity of an employee or manager of a foreign bank branch, who provides Národná banka Slovenska with any information on shortcomings in the activities of the bank or foreign bank branch concerned in accordance with Section 50(1).

Section 50b

Repealed as from 1 January 2016

Section 51

(1) Národná banka Slovenska may impose a fine on a legal person that is part of a consolidated group over which it exercises supervision on a consolidated basis, according to the seriousness, scope, duration, consequences, and nature of the revealed shortcomings, in the amount of EUR 3,300 to EUR 664,000, if the legal person:

- (a) does not allow an on-site inspection;
- (b) fails to supply the requested statements, returns, and other reports for the purposes of supervision on a consolidated basis;
- (c) provides incorrect, untrue, or incomplete statements, returns, and other reports, or fails to meet the deadlines set for their delivery; or
- (d) fails to comply with the duty stipulated in Section 47(1).

(2) The provisions of Section 50(7) to (9) and the first sentence of paragraph 10 apply to fines as mentioned in paragraph 1.

Section 51a

(1) Národná banka Slovenska may impose a fine on a mixed financial holding company or a person included in a financial conglomerate over which Národná banka Slovenska exercises supplementary supervision, according to the seriousness, scope, duration, consequences, and nature

of the revealed shortcomings, in the amount of EUR 3,300 to EUR 664,000, if the person concerned:

- (a) does not allow an on-site inspection;
- (b) fails to supply the requested statements, returns, and other reports for the purposes of supplementary supervision;
- (c) provides incorrect, untrue, or incomplete statements, returns, or other reports, or fails to meet the deadlines set for their delivery; or
- (d) fails to comply with the duties stipulated in Sections 49g to 49j.

(2) When the solvency of a financial conglomerate is at risk or the requirement to maintain a sufficient amount of own funds is not met in a financial conglomerate that is subject to supplementary supervision, Národná banka Slovenska shall, in relation to the mixed financial company, be entitled to:

- (a) impose measures designed to ensure the recovery of the financial conglomerate concerned in accordance with Section 50(3); or
- (b) restrict or suspend the conduct of certain intragroup transactions.

(3) If a financial conglomerate includes a person that is under the supervision of Národná banka Slovenska in accordance with Section 6(1), Národná banka Slovenska shall also be entitled to impose a fine under Section 50 on the basis of a notice from the relevant Member State's supervisory authority responsible for supervising the financial conglomerate in which the person mentioned in Section 6(1) is included.

(4) If Národná banka Slovenska imposes a fine under Section 6(1) on a person included in a financial conglomerate that is subject to supplementary supervision by another Member State's competent supervisory authority and if the imposition of such fine has some significance for the exercise of supplementary supervision, Národná banka Slovenska shall report this fact to the relevant supervisory authority of the Member State concerned.

Section 52

(1) Národná banka Slovenska may suspend the exercise of the right to attend and vote at a bank's general meeting and the right to request the convention of an extraordinary meeting for a person who has performed a deed in violation of Section 28(1)(a), or who has acquired prior approval under Section 28(1)(a), on the basis of a misstatement. The exercise of these rights may also be suspended by Národná banka Slovenska for a person whose action is detrimental to the proper and prudent operation of the bank or where such action can reasonably be expected in cases specified in Section 28(12).

(2) From its issuer's register and list of shareholders, a bank shall submit to Národná banka Slovenska an extract produced on a relevant date^{49a} that is no later than five working days before the date of its general meeting. The bank shall submit this extract to Národná banka Slovenska on the date it was produced. Národná banka Slovenska shall without delay name in writing on the extract the person whose rights mentioned in paragraph 1 are suspended and shall deliver the extract to the bank no later than the day preceding the date of the general meeting.

(3) A preliminary injunction mentioned in paragraph 1 shall be binding upon the bank.

(4) A preliminary injunction mentioned in paragraph 2 is also deemed delivered when given to a proxy authorised to represent the person concerned at the general meeting.

(5) A bank may not allow the presence at its general meeting of persons marked by Národná banka Slovenska under paragraph 2, or persons not included in the extract submitted by the bank under paragraph 2, or persons authorised to act on their behalf.

(6) The shares affected by a suspension of the exercise of rights under paragraph 1 are not deemed to be shares with voting rights during the suspension of these rights. These shares are not taken into account when a general meeting is assessed whether it has a quorum to take decisions or when the general meeting makes decisions. The resulting increase in the share of voting rights of other persons that are named in the extract submitted by the bank under paragraph 2 does not require the prior approval of Národná banka Slovenska under Section 28(1)(a).

(7) When the reasons for suspending the exercise of rights under paragraph 1 cease, Národná banka Slovenska shall lift the suspension without delay.

(8) Národná banka Slovenska shall be entitled to file a request in court to declare invalid a decision of a bank's general meeting owing to a violation of laws, other legislation of general application, decisions of Národná banka Slovenska, or the bank's articles of association, within three months from the date it learnt of this decision, but no later than within a year from the date when the decision was adopted.

Section 52a

(1) Národná banka Slovenska shall notify the European supervisory authority (European Banking Authority) of any sanctions it has imposed, for the purposes of information exchange between the competent supervisory authorities via the central database maintained by the European supervisory authority (European Banking Authority). Národná banka Slovenska shall provide the European supervisory authority (European Banking Authority) with any information needed to keep that central database up-to-date.

(2) Národná banka Slovenska shall use the central database referred to in paragraph 1 for the purpose of assessing the reputation of persons under this Act. In providing data from the crime register to the competent supervisory authorities, Národná banka Slovenska shall proceed in accordance with another act.^{49aa}

Section 53

(1) Národná banka Slovenska may impose receivership upon a bank where, in regard to the circumstances and the bank's financial situation, the measures referred to in Section 65a(7) are unlikely to eliminate the deficiencies in the bank's activities or to improve its financial situation.

(2) The purpose of receivership of a bank is in particular:

- (a) to prevent the bodies of a bank responsible for the deteriorating economic situation of the bank from performing their functions;
- (b) to eliminate the most serious shortcomings in the bank's management and activities with the objective of stopping further deterioration in the bank's economic situation;
- (c) to protect the deposits and other rights of the bank's clients and to protect the holders of covered bonds issued by the bank against damage or increasing damage;
- (d) to adopt a recovery programme, if the bank's economic recovery is feasible, including the adoption and performance of organisational and other measures designed to gradually stabilise the bank and restore its liquidity, mainly in cooperation with the major shareholders of the bank.

(3) Receivership is a reorganisation measure that may impact upon the existing rights of third persons.

(4) Národná banka Slovenska shall impose receivership if a bank's own funds are at a level lower than 50% of the total amount corresponding to the bank's own funds requirements.^{20a}

(5) Národná banka Slovenska may impose receivership if shortcomings in the bank's operation put its safe functioning at risk or endanger the rights or interests of its clients protected by law, if the results of operations for the current period and for previous periods cause the bank a loss exceeding 30% of its share capital, or in the case of another serious shortcoming in the bank's operation. Národná banka Slovenska shall impose receivership in accordance with the first sentence only if the removal or replacement of a member of the bank's management board or supervisory board has not led to the elimination of shortcomings in the bank's operations, which thus continue posing a risk to its safe functioning or endangering the rights or interests of its clients protected by law, nor has it led to the elimination of other major shortcomings in the bank's operations or to an improvement in its financial position consisting in a loss exceeding 30% of the bank's share capital in its financial results for the current period or for the previous periods.

(6) Receivership shall be introduced from the moment of delivery of a decision on receivership to a bank; it shall have immediate effect on the bank and other persons. Through the delivery of this decision, the information obligation of Národná banka Slovenska will be met.

(7) From the moment of its introduction, receivership imposed on a bank shall also apply to its branches located in other Member States and shall be effective in relation to third persons, too. Receivership imposed on a bank branch located in another Member State shall be conducted and its effects managed pursuant to this Act, unless provided otherwise hereunder.

(8) Národná banka Slovenska may not place in receivership a foreign bank branch established by a foreign bank established in another Member State. Receivership in a foreign bank branch shall be subject *mutatis mutandis* to the provisions that apply to receivership imposed on banks.

(9) A foreign reorganisation measure with a similar purpose and impact upon the existing rights of third persons as the purpose and impact of receivership (hereinafter 'foreign reorganisation measure') introduced in a foreign bank established in a Member State shall, from the moment of its introduction, also apply to its branch located in the territory of the Slovak Republic and shall also be effective in relation to third persons in the territory of the Slovak Republic. A foreign reorganisation measure introduced in a Member State over a foreign bank branch with a registered office outside the European Union shall, from the moment of its introduction, also be effective *vis-à-vis* third persons in the territory of the Slovak Republic. A foreign reorganisation measure introduced in a Member State shall be implemented in the territory of the Slovak Republic and its effects managed pursuant to legislation of that Member State, unless this Act provides otherwise.

(10) Národná banka Slovenska shall forthwith provide for the publication of the pronouncement of a decision on the imposition of receivership, instructions on how to file an appeal, and the purpose of receivership in the Journal of Národná banka Slovenska, in at least two nationwide dailies, on publicly accessible premises of the head office, and in commercial offices of the bank placed in receivership; any persons Národná banka Slovenska asks to disclose such data shall do so. Where receivership is imposed on a bank that has a branch located in the territory of a Member State, Národná banka Slovenska shall forthwith provide for the publication of the

pronouncement of a decision on the imposition of receivership, instructions on how to file an appeal, and the purpose of receivership also in the Official Journal of the European Union and in at least two nationwide dailies of the relevant Member State, both in Slovak and in the official language of the Member State concerned. The publication of such data shall have no impact upon the effects of receivership.

(11) Národná banka Slovenska shall forthwith inform the relevant Member State's competent supervisory authority about the imposition of receivership upon a bank that has a branch in the territory of that Member State. This information shall also comprise the explication of effects ensuing from the imposition of receivership.

(12) If, while exercising supervision in accordance with Section 16 over a foreign bank branch, Národná banka Slovenska reveals any reason for the introduction of a foreign reorganisation measure in the foreign bank that has its registered office in a Member State and to which this branch belongs, it shall report this fact to the competent supervisory authority of that Member State.

Section 54

(1) Receivership in a bank is to be conducted by an official receiver (hereinafter 'receiver') and by a deputy receiver. A receiver and at most two deputy receivers are to be appointed or recalled by Národná banka Slovenska. For the same bank, one or more receivers may be appointed. A receiver and its deputies may be appointed for a period of maximum one year. In exceptional situations, Národná banka Slovenska may prolong this period, provided that the conditions of appointment are fulfilled.

(2) A certificate of the appointment of a receiver and a deputy receiver for the conduct of receivership and of persons implementing a foreign reorganisation measure in a foreign bank having its registered office in a Member State shall be an original of a deed of appointment or a certificate issued by Národná banka Slovenska or by the competent supervisory authority of the relevant Member State. Certification of translation of such certificate into the official language of the Member State or the application of a similar procedure thereto shall not be required.

(3) A receiver may be a natural or legal person as specified in paragraph 5 of this Section.

(4) A receiver and a deputy receiver, if being a natural person, and the members of a receiver's or deputy receiver's statutory body, if being a legal person, must be persons with the same professional competence as the bank's supervisory board members in accordance with Section 7(14). A receiver or a deputy receiver may not be a person who:

- (a) is an employee of Národná banka Slovenska or a member of the Resolution Council or was an employee of Národná banka Slovenska or a member of the Resolution Council at any time in the past two years before the imposition of receivership;
- (b) has been lawfully sentenced for a criminal offence committed in a managerial position or for an intentional criminal offence;
- (c) held, at any time in the past three years, office as a member of the supervisory board, statutory body, authorised representative, or a manager in the bank placed in receivership, unless the receiver voluntarily resigned from this office;
- (d) has a special relationship as defined in Section 35(4) with the bank placed in receivership;
- (e) is a borrower or creditor of the bank placed in receivership;
- (f) is an employee or member of the statutory or supervisory body of a legal person that is a borrower or creditor of the bank placed in receivership;

- (g) is a member of the statutory or supervisory body of another bank, or the chief executive officer, or their deputy, of another foreign bank branch;
- (h) at any time in the past year, provided the bank placed in receivership with audit services, without expressing qualified opinion about the bank's activities.

(5) The partners or shareholders of a receiver, being a legal person, its statutory body, statutory body members, supervisory board members and employees through which the receiver conducts receivership in a bank, are subject to paragraph 4.

(6) A bank's receiver shall be authorised to manage the bank and its employees or to cooperate with the bank's statutory body in managing the bank and its employees. The statutory body shall cooperate with the receiver to such extent as the receiver may deem necessary for the exercise of its powers. The powers of a receiver are defined by this Act, other acts,^{49b} and a contract to perform the functions of a receiver concluded under Section 57(1), to which no other act shall apply.²⁷ Acting in the capacity of a receiver, who is a natural person, shall be deemed to be a public office, for the performance of which days off shall be provided under other legislation. The receiver shall be bound by limitations specified in a decision of Národná banka Slovenska on the introduction of receivership or the contract to perform the functions of a receiver.

(7) A deputy receiver shall be responsible for the sphere of activity of a bank in receivership that is entrusted to him or her by the receiver and shall report to the receiver when conducting receivership. The powers of a deputy receiver are defined in a contract to perform the functions of a deputy receiver concluded with Národná banka Slovenska under Section 57(1), to which no other act shall apply.²⁷ Acting in the capacity of a deputy receiver, if being a natural person, is to be regarded as a public office, for the performance of which days off are to be provided under other legislation. With the prior written approval of Národná banka Slovenska, the receiver may empower in writing one of their deputies to perform acts on behalf of the receiver, on the basis of a written power of attorney with a signature verified in accordance with other acts;⁵⁰ such prior approval may be expressed directly in the contract to perform the functions of a receiver.

(8) In conducting receivership in the territory of another Member State, a receiver and a deputy receiver shall proceed in accordance with laws and other legislation of general application of the Member State in the territory of which they operate, especially when realising assets and providing information to employees.

(9) A person implementing a foreign reorganisation measure introduced in a Member State and their deputy shall have, when implementing this foreign reorganisation measure, the same legal status and shall be authorised to perform all the powers in the territory of the Slovak Republic as if conducting receivership in the territory of the Member State in which the foreign reorganisation measure has been introduced; when performing their powers, however, they must proceed in accordance with the laws and other legislation of general application of the Slovak Republic, especially when realising assets and providing information to employees.

(10) With the prior written approval of Národná banka Slovenska, a receiver conducting receivership shall be entitled, with the aim of accelerating the solution of serious problems in the bank in receivership, to hire professional advisors; such prior approval may be expressed directly in the contract to perform the functions of a receiver. A professional advisor may be hired exclusively for tasks for the performance of which they have the necessary professional competence and experience. A professional advisor may not be a person who under paragraph 4 may not be a receiver.

(11) The office of a receiver and their deputies shall terminate on the date when the receivership ends, the period for which they were appointed expires, or on the day of their dismissal from office. Národná banka Slovenska shall dismiss a receiver or a deputy receiver if, in connection with receivership, they violate this Act or other legislation of general application, or if there are reasons for their dismissal as specified in the contract to perform the functions of a receiver or deputy receiver.

Section 55

(1) Where a bank is placed in receivership, the performance of functions shall be suspended for all bodies and managers of that bank,²² except for the general meeting of shareholders, and the powers of the bank's statutory body and supervisory board shall be transferred to the receiver. During this time, the term of office of members of the statutory body and the supervisory board shall not lapse. This shall not preclude the right of the statutory body to appeal against the decision to impose receivership. In performing the duties of the statutory body and the supervisory board, the receiver shall not be subject to any other acts.¹

(2) A receiver is authorised to convene and chair a general meeting of a bank, to set the agenda thereof, and to submit proposals. A general meeting may be convened and its agenda set only with the prior approval of Národná banka Slovenska.

(3) A receiver shall be entitled to take measures needed to restore the stability and liquidity of a bank, in particular to dispose of its accounts receivable and other assets, including the sale of a branch or another organisational unit of the bank as part of the bank's business or the bank's entire business for a reasonable price, to close down a branch or another organisational unit of the bank, or to discontinue their operations; the foregoing is without prejudice to the provisions of Section 28(1).

(4) A receiver shall, no later than 30 days after the imposition of receivership, submit to Národná banka Slovenska a recovery programme for the bank placed in receivership, or propose another solution for the situation in the bank.

(5) A receiver may, with the prior approval of Národná banka Slovenska and the Resolution Council, put forward a motion for bankruptcy proceedings⁵² if a bank becomes insolvent.^{24aa}

(6) A receiver may submit a proposal to Národná banka Slovenska for the revocation of a banking authorisation if they find any of the facts stated in Section 63.

(7) The provisions of paragraphs 1 to 6 shall not apply where the receiver's powers as specified in Section 54(6) consist in cooperation with the statutory body in the bank's management.

(8) If, while performing due diligence, the receiver of a bank that is a covered bond issuer concludes that further administration of a covered bond programme would have a negative effect on the settlement of the claims of covered bond holders, they shall, on their own initiative and in cooperation with the covered bond programme administrator, notify Národná banka Slovenska in writing regarding the intention to transfer the covered bond programme or parts thereof to a third party, which must be a bank or several banks authorised to perform activities related to a covered bond programme, with the aim of transferring the covered bond programme at an adequate price within one year from the day when the notification was served to Národná banka Slovenska, unless paragraph 9 stipulates otherwise. When drawing the conclusion mentioned in the first sentence, the receiver shall take into account the interests and fair settlement possibilities of all covered bond holders, including creditors of liabilities with the longest maturity. Transfers of covered bond programmes or parts thereof are governed by the provisions of the Commercial Code concerning

the sale of an enterprise or a part thereof,²⁸ with the difference that a transfer of a covered bond programme shall not require a transfer of either the enterprise's personal assets, or any part thereof,^{28b} and that upon completion of the transfer of a covered bond programme or a part thereof the creditor may not seek a declaration of ineffectiveness of the transfer or transition of such liability from the seller to the buyer where the obligation towards the creditor forms a part of the transfer of a covered bond programme or the corresponding part thereof.^{28c} The provisions of Section 67(9) shall not apply to a transfer of a covered bond programme or a part thereof by the receiver of a bank that is a covered bond issuer.

(9) If the transfer of a covered bond programme or a part thereof to a third party is not carried out within one year from the day when the notification was served to Národná banka Slovenska as stipulated in paragraph 8, Národná banka Slovenska may, based on a written application submitted by the corresponding receiver, decide to extend this period by up to one year; this shall be done no later than one month before the lapsing of this period and if a later transfer of the covered bond programme is reasonably likely to ensure a higher settlement ratio of the claims of covered bond holders.

(10) In order to be valid and effective, the transfer of a covered bond programme or a part thereof does not require the consent of the covered bond holders under another act,^{52a} or the debtors of liabilities corresponding to claims that form the primary assets in accordance with Section 70.

Section 56

(1) Receivers, deputy receivers, and invited professional advisors shall perform their duties with due professional care and shall be liable for any damage caused by their activity. Receivers and deputy receivers shall regularly inform Národná banka Slovenska of the steps they have taken in the course of receivership. Národná banka Slovenska may require receivers to submit regular reports on the financial positions of banks in receivership. Such reports shall be submitted no later than two weeks before the end of receivership.

(2) Receivers, deputy receivers, and invited professional advisors may not misuse the information they acquire while conducting receivership in their favour or in favour of other persons, and may not handle a bank's assets in their favour or in favour of close persons.³⁰

(3) Receivers, deputy receivers, and invited professional advisors shall keep confidential any facts associated with the conduct of receivership in relation to all persons, except for Národná banka Slovenska, in connection with the performance of their tasks under this Act or other legislation;⁸ the confidentiality obligation shall remain in effect after they complete their tasks in connection with the receivership. The foregoing is without prejudice to the provisions of Section 91(2) to (7), Section 92(1) to (7), and Section 93.

Section 57

(1) Národná banka Slovenska shall conclude a contract with a receiver to perform the tasks of a receiver, which shall specify in detail the receiver's rights and duties. It shall also define the receiver's liability for any damage caused in conjunction with the performance of these tasks. Národná banka Slovenska shall conclude a contract with a deputy receiver to perform the tasks of a deputy receiver, which shall specify in detail the deputy receiver's rights and duties. It shall also define the deputy receiver's liability for any damage caused in connection with the performance of these tasks.

(2) A receiver shall invite professional advisors under Section 54(10) on a contractual basis, in accordance with the terms and conditions approved by Národná banka Slovenska.

(3) The remuneration due to the receiver and deputy receiver for their office shall be determined by Národná banka Slovenska.

(4) Expenses related to the conduct of receivership, including the remuneration of the receiver, deputy receiver, and professional advisors shall be covered by the bank placed in receivership.

Section 58

(1) Members of the statutory body, members of the supervisory board, managers, and the head of the internal control and internal audit unit shall, at the request of a receiver, cooperate with the receiver, in particular to provide any document and material requested by the receiver in connection with the conduct of receivership.

(2) A receiver shall be entitled to immediately terminate an employment contract, give a dismissal notice, or transfer to another position²⁷ a manager or the head of the internal control and internal audit unit. This shall not apply where the receiver's powers as specified in Section 54(6) consist in cooperation with the statutory body in the bank's management.

(3) In a bank placed in receivership, the members of the bank's statutory body and supervisory board may not receive any severance pay or any benefits upon termination of their membership in these bodies provided for in contracts made between the bank and the statutory body members or supervisory board members, or stipulated by the bank's internal regulations.

Section 59

(1) The effects of receivership imposed upon a bank having a branch in another Member State, if concerned are:

- (a) labour contracts and labour-law relations shall be governed by the legal system of the Member State pertaining to the labour contract;
- (b) purchase contracts and lease contracts relating to real property shall be governed by the legal system of the Member State in the territory of which the real property is located;
- (c) rights relating to real property, a ship or an airplane, that must be recorded in the real estate register or in another public register, shall be governed by the legal system of the Member State in the territory of which the relevant public register is kept; this shall equally apply to legal acts carried out after receivership has been imposed, in respect of real property, a ship or an airplane, and the associated rights, required to be entered in a public register or another similar register kept in the Member State concerned;
- (d) ownership rights or other rights to investment instruments^{37a} that must be entered in a public register of securities or another similar register, kept or located in a Member State, shall be governed by the legal system of the Member State in the territory of which the relevant public register or other similar register is kept; this shall equally apply to legal acts carried out upon the imposition of receivership, relating to the financial instruments and the associated rights that are required to be entered in a public register or another similar register kept in the Member State concerned;
- (e) contracts on settlement or other similar agreements, the purpose of which is to compensate or change the overall difference between the mutual claims and liabilities of contracting parties into a single summary mutual claim or liability for these contracting parties; purchase and

repurchase agreements, and contracts for stock exchange transactions, shall be governed by the legal system applying to these contracts.

(2) For a period of six months from the imposition of receivership, no assignment of claims against the bank in receivership or claim set-offs between the bank and other persons shall be permitted, except for cases where the legal system of another Member State in which the creditor's residence or registered office is located allows for the assignment of claims and claim set-offs even during the introduction of a reorganisation measure.

(3) A receiver may challenge a legal act⁵³ carried out in the past three years prior to the imposition of receivership with the intention of harming the bank or its creditors, if such intention was known to the bank; this shall not apply if the counterparty can document that, despite due care, it could not be aware of the bank's intention to harm its creditors.

(4) A receiver may also challenge a legal act⁵³ inflicting damage on a bank, carried out in the past three years prior to the imposition of receivership between the bank and a person in a special relationship with the bank.

(5) The imposition of receivership or of a foreign reorganisation measure in a Member State shall not affect the real rights of creditors or third persons in relation to assets belonging to a bank or a foreign bank, which, at the time when receivership or a foreign reorganisation measure is introduced, are located in the territory of another Member State.

(6) The imposition of receivership on a bank purchasing an asset or of a foreign reorganisation measure in a foreign bank purchasing an asset shall not affect the entitlement of the seller to maintain the ownership, if, at the time when receivership or a foreign reorganisation measure is introduced in a Member State, this asset is located in the territory of another Member State.

(7) The imposition of receivership on a bank selling an asset, or of a foreign reorganisation measure in a foreign bank selling an asset, shall not constitute grounds for cancellation or termination of the sale of an already delivered asset and shall not prevent the buyer from acquiring the ownership, if, at the time when receivership or a foreign reorganisation measure is introduced, the asset under sale is located in the territory of another Member State.

(8) The introduction of receivership or of a foreign reorganisation measure in a Member State and the provisions of paragraphs 2, 5, 6 and 7 shall not be an obstacle to filing a motion with the court to determine the nullity of legal acts or invalidity of disputable legal acts that are detrimental to creditors, a motion to determine the right to withdraw from legal acts, or a motion to pronounce the nullity of legal acts detrimental to creditors, or a motion to impose a non-deferrable measure concerning an obligation to refrain from the performance of legal acts detrimental to creditors of a bank placed in receivership or creditors of a foreign bank in which a foreign reorganisation measure has been introduced. If, before the introduction of receivership, court proceedings have been commenced in a Member State concerning an asset or a right withdrawn from a bank, such proceedings shall be governed, even after the introduction of receivership, by the legal system of the Member State in which the proceedings has been commenced and conducted.

(9) The imposition of receivership on a bank is without prejudice to the validity, effectiveness, and exercise of rights under a contract on final settlement of gains and losses or a contract on financial collateral, provided that such contract meets the requirements of other acts.^{53a}

Section 60

(4) The introduction of a foreign reorganisation measure in a foreign bank having its registered office in a Member State and a branch in the territory of the Slovak Republic, its termination and changes related thereto shall be entered into the Commercial Register. Also the full name and address of residence of the person in charge of the foreign reorganisation measure shall be entered into the Commercial Register.

Section 61

(1) During receivership, Národná banka Slovenska may provide financial assistance to a bank in order to overcome a temporary lack of liquidity. A loan by which such financial assistance is provided must be adequately secured by assets serving as collateral; no bank may be favoured or disfavoured in the provision of such financial assistance.

(2) Claims for the repayment of financial assistance provided in accordance with paragraph 1 shall have priority over the bank's other liabilities, except for such other liabilities that have priority in the satisfaction of claims under other acts.⁵⁵

Section 62

(1) Receivership shall end:

- (a) upon delivery of a decision by Národná banka Slovenska to end receivership, when reasons for its continuation cease;
- (b) when the bankruptcy of the bank in receivership is declared;
- (c) upon expiry of twelve months from the imposition of receivership; this shall not apply where Národná banka Slovenska assesses that, upon expiry of the twelve-month period, the reasons for receivership still persist; or
- (d) by revocation or expiry of the banking authorisation.

(2) The end of receivership under paragraph 1 shall be promulgated without delay by Národná banka Slovenska in at least one nationwide daily and on the publicly accessible premises of the bank in receivership and in all its commercial offices. Persons asked by Národná banka Slovenska to promulgate this announcement have the duty to do so.

(3) A bank whose receivership ends shall convene an extraordinary general meeting without delay so that it is held within 30 days of the end of receivership. The bank shall include in the agenda of the extraordinary general meeting the dismissal of the present and the election of new members of the bank's statutory body and supervisory board; the new statutory body and supervisory board members must comply with the criteria stipulated in Section 7(2)(e).

Section 62a

(1) Národná banka Slovenska as a consolidating supervisor shall notify the European supervisory authority (European Banking Authority) and the College members of its intention to issue a decision to impose receivership upon a bank that is a parent undertaking and shall discuss the matter with the College. Národná banka Slovenska shall take into account the impact of receivership on the members of the group concerned, established in other Member States. Národná banka Slovenska shall inform the College members and the European supervisory authority (European Banking Authority) of the issuance of such decision.

(2) If Národná banka Slovenska as the consolidating supervisor is notified that another Member State's supervisory authority of a member of a group intends to issue a decision in respect of a foreign reorganisation measure, Národná banka Slovenska may assess the probable impact of that decision on the group or on its members from other Member States and report its comments to the competent supervisory authorities of those Member States within three days.

(3) Národná banka Slovenska shall notify the European supervisory authority (European Banking Authority) of its intention to issue a decision to impose receivership upon a bank that is part of a group and shall discuss the matter with the competent consolidating supervisor of that group. Národná banka Slovenska shall inform the College members and the European supervisory authority (European Banking Authority) of the issuance of such decision.

(4) If Národná banka Slovenska as a consolidating supervisor is notified pursuant to paragraph 2 that one or more supervisory authorities of other Member States exercising supervision over the members of a group intend to issue a decision in respect of a foreign reorganisation measure, Národná banka Slovenska shall, working closely with these supervisory authorities, assess as to whether it would be more appropriate to appoint one receiver for all the members of that group, within five days of the date of notification pursuant to paragraph 1. If Národná banka Slovenska fails to reach a joint decision with the supervisory authorities within this time limit, Národná banka Slovenska shall decide to impose receivership upon a group member on its own. If, within the time limit specified in the first sentence, any of the supervisory authorities requests assistance from the European supervisory authority (European Banking Authority) to reach an agreement under other legislation,¹⁹ Národná banka Slovenska as a consolidating supervisor shall decide in the matter in accordance with the decision taken by the European supervisory authority (European Banking Authority). If the European supervisory authority (European Banking Authority) fails to issue such decision within three days of receipt of the request for assistance, Národná banka Slovenska shall decide in respect of the imposition of receivership on its own. Národná banka Slovenska shall inform the College members of its decision to impose receivership.

(5) If Národná banka Slovenska disagrees with the competent supervisory authority's intention to issue a decision in respect of a foreign reorganisation measure in relation to a parent undertaking that is part of a group, along with a banking subsidiary that is supervised by Národná banka Slovenska, or in relation to a subsidiary established in another Member State and belonging to a group supervised by Národná banka Slovenska or if no joint decision is reached, Národná banka Slovenska may request assistance from the European supervisory authority (European Banking Authority) under other legislation.¹⁹

Section 65

(1) Following the delivery of a decision to revoke a banking authorisation or the expiry of a banking authorisation, Národná banka Slovenska shall forthwith discontinue, for a legal person whose authorisation expired or was revoked, the provision of payment and settlement services under Section 2(13).

(2) From the delivery of a decision to revoke a banking authorisation or from the day on which a banking authorisation expires, the legal person mentioned in paragraph 1 may not accept deposits or provide loans, nor perform activities other than those necessary to settle its outstanding claims and liabilities; such a legal person shall make payments to settle its existing claims and liabilities through an account established in another bank.

(3) A legal person whose banking authorisation has been revoked, or has expired, shall conduct activities under paragraph 2 as a bank or a foreign bank branch under this Act until its claims and liabilities are settled. The duty to submit accounting statements, statistical reports, and prudent banking reports shall not apply to such a legal person.

(4) Within 30 days after the entry into force of a decision to revoke a banking authorisation, Národná banka Slovenska shall send the decision for publication in the Commercial Bulletin.^{24c}

(5) A valid decision to revoke a foreign bank's authorisation to conduct banking activities through a branch shall be reported by Národná banka Slovenska to the competent supervisory authority of the country in which the foreign bank has its registered office. If a decision is issued to revoke a banking authorisation of a legal person that has a foreign branch, Národná banka Slovenska shall report this fact to the competent supervisory authority of the country in which the legal person has its branch.

(6) The revocation of a banking authorisation shall be recorded in the Commercial Register.¹ Within 15 days from the effective date of a decision to revoke a banking authorisation,

Národná banka Slovenska shall send a proposal to register this fact to the court keeping the Commercial Register; the submission of such proposal shall not be subject to any other act.⁵⁴

(9) When a bank is wound up following the expiry of a banking authorisation pursuant to Section 64(1)(d) by liquidation in accordance with other legislation,⁵⁹ it shall request Národná banka Slovenska to appoint a liquidator pursuant to Section 66(1).

(10) Národná banka Slovenska shall discontinue the proceedings to revoke a banking authorisation on the basis of a decision to declare bankruptcy under other legislation.⁵⁸

Section 65a **Early intervention measures**

(1) If Národná banka Slovenska finds deficiencies in a bank's activities consisting in non-compliance with or circumvention of the provisions of this Act, the binding legal acts of the European Union governing the performance of banking activities or other legislation of general application pertaining to banking activities, or if Národná banka Slovenska has good reasons to suspect that a deficiency in a bank's activities may occur in the near future owing to its deteriorating financial situation, Národná banka Slovenska may impose an early intervention measure on that bank in the form of one of the following obligations:

- (a) to implement one or more measures from its recovery plan or to update that plan and implement one or more measures from the updated recovery plan;
- (b) to carry out an analysis of its situation, to propose measures for the problems identified, and to draw up a plan for their implementation, including a schedule;
- (c) to convene a general meeting and to set its agenda according to the recommendations of Národná banka Slovenska; if the bank fails to convene a general meeting, Národná banka Slovenska may convene a general meeting and set its agenda, subject *mutatis mutandis* to the provisions of another act;¹

(2) In assessing whether a bank's financial situation is deteriorating as described in paragraph 1, Národná banka Slovenska shall examine the bank's situation in terms of its liquidity risk exposure, leverage ratio, volume of non-performing loans, concentration risk exposure and capital adequacy ratio, which exceeds the own-funds requirement by less than 1.5 percentage points.

(3) Národná banka Slovenska shall, without delay, notify the Resolution Council of any deficiencies identified in accordance with paragraph 1. The Resolution Council shall be entitled to impose on the bank concerned a requirement to enter into negotiations with potential buyers of the bank or a part thereof, while taking into account the conditions specified in other legislation.^{48h}

(4) Národná banka Slovenska shall set a time limit for the implementation of early intervention measures as listed in paragraph 1, taking into account the circumstances and the gravity of the deficiency in the bank's activities, as well as any reasonable grounds to suspect that a deficiency may occur in the near future.

(5) The application of early intervention measures as listed in paragraph 1 is without prejudice to the provisions of Section 50.

(6) The application of early intervention measures in relation to a bank that is part of a consolidated unit is subject *mutatis mutandis* to the provisions of Section 62a.

(7) If a bank's financial situation is rapidly deteriorating or Národná banka Slovenska finds major deficiencies in its activities but the early intervention measures listed in paragraph 1 fail to remedy the situation, Národná banka Slovenska may remove a member of the bank's management board, supervisory board or a manager. The appointment of a new management board member, supervisory board member or manager shall be subject to approval by Národná banka Slovenska.

(8) The application of the procedure described in paragraph 7 is without prejudice to the provisions of Section 50.

(9) An early intervention measure may be imposed within two years of the date when deficiencies are identified or a suspicion arises that a deficiency may occur in the near future, but no later than ten years from its occurrence. The same time limits are to be applied when a person is removed from office pursuant to paragraph 7. The limitation periods mentioned in the first and second sentences are to be interrupted when an event leading to such interruption under another act^{48aa} occurs. Subsequently, a new limitation period will begin to lapse from the time of interruption. Deficiencies in a bank's activities are to be considered detected from the date when the relevant on-site inspection is completed in accordance with another act.^{48a}

(10) A decision to impose an early intervention measure is executable upon its delivery. It is possible to lodge an appeal against such decision under another act.^{60b}

(11) The disclosure of information about an early intervention measure or about a person's removal from office under paragraph 7 is subject to the provisions of Section 50(15) to (17).

(12) The early intervention measures listed in paragraph 1 are subject to the provisions of other legislation.^{60c}

DIVISION ELEVEN LIQUIDATION OF A BANK

Section 66

(1) When a bank is wound up by liquidation, only Národná banka Slovenska is entitled to appoint a liquidator; the appointment of a liquidator is not subject to the provisions on proceedings

in matters of financial market supervision under other legislation⁶⁰ or the provisions of legislation of general application on administrative proceedings.^{72a} As soon as a liquidator is appointed, Národná banka Slovenska shall submit a proposal for the liquidator's entry in the Commercial Register.

(2) A liquidator may not be a person who has or had a special relationship with the bank, who is or was at any time in the last five years an auditor of the bank, or was engaged in its audit in any way, without expressing a qualified opinion on the bank's operations.

(3) Národná banka Slovenska shall set the liquidator's remuneration, taking into account the range of their activities, and it shall also determine the due date for such remuneration.

(4) Persons involved in the liquidation of a legal person whose banking authorisation has been revoked, or has expired, shall keep confidential any facts associated with the conduct of liquidation vis-à-vis all persons except for Národná banka Slovenska in connection with the performance of its tasks under this Act or under another act,⁸ even upon the termination of liquidation; the provisions of Sections 91 to 93a shall not be prejudiced thereby.

(5) A liquidator shall forthwith submit to Národná banka Slovenska accounting statements and documents processed in the course of liquidation under another act¹ and other supporting documentation requested by Národná banka Slovenska in order to review the liquidator's activity and the progress of liquidation.

(6) A liquidator shall enforce the surrender of any consideration paid according to invalid or disputable legal acts which harmed the bank or its creditors. The liquidator shall also perform other activities necessary for the purposes of liquidation of this legal person. Such activities may only be performed with the approval of Národná banka Slovenska. The provisions of Sections 94 to 114 or the Code of Administrative Procedure shall not apply to the granting of such approval.

(7) A liquidator shall publish the pronouncement of a decision on the liquidation of a legal person whose banking authorisation has been revoked, or has expired, in the Official Journal of the European Union and at least two nationwide dailies in each Member State where a branch of this legal person is located, namely in the Slovak language and the official language of the relevant Member State.

(8) The provisions of paragraphs 1 to 7 shall likewise apply to the liquidation of a foreign bank branch having its registered office outside the European Union.

(9) The provisions of Section 54(2) and Section 59(1), (2) and (5) to (8) shall equally apply to the liquidation of a legal person whose banking authorisation has been revoked or has expired, including its branch located in the territory of another Member State, to the liquidation of a foreign bank branch having its registered office outside the European Union, as well as to the liquidator's procedures.

(10) Claims of a bank or a foreign bank branch in liquidation shall be settled in the same order as they would be settled when satisfying creditors in the case of bankruptcy of a bank under other legislation.^{83a}

DIVISION TWELVE COVERED BOND PROGRAMMES

Section 67

Covered bonds and covered bond programmes

(1) A covered bond is a secured bond under another act;⁶¹ the nominal value and aliquot interest yield of a covered bond are fully secured by assets in a cover pool in accordance with Section 68(1) and correspond to the value of assets which, throughout the entire lifetime of the bond, are used on a priority basis for covering claims attaching to the bond and which, in the event of failure of the issuing bank to settle its obligations in a timely manner, are used for the payout of the covered bond's nominal value and aliquot interest yield. Covered bonds may only be issued by a bank as defined in this Act and their names must include the term "covered bond".

(2) A bank that is a covered bond issuer shall disclose information stipulated in Section 37(9)(i) to (m).

(3) The issuing and administration of covered bonds are subject to oversight by a covered bond programme administrator in accordance with Section 79(1) and supervision by Národná banka Slovenska as defined in this Act and in another act.⁸⁹

(4) Bonds under another act⁶¹ that do not meet the conditions for covered bonds laid down in this Act may not be titled "covered bonds".

(5) A covered bond programme is the set of all rights and obligations of a bank that is a covered bond issuer which relate to the issuing of bonds and to the cover pool. Separate covered bond issuances with the same type of primary assets shall be considered a single covered bond programme.

(6) A part of the covered bond programme must correspond to one or several covered bond issuances together with a corresponding part of the cover pool meeting the coverage requirements laid down in Section 68.

(7) Covered bond holders shall have a pre-emptive security right to assets in the cover pool. In procedures defined in this Act or other acts,⁵⁸ the security right under the first sentence shall secure the claims of holders of covered bonds against the issuing bank.

(8) A bank that is a covered bond issuer may transfer a covered bond programme to a third party, which must be a bank or several banks; this shall be without prejudice to the provisions of paragraphs 10 to 13 hereof, Section 28, Section 50(1)(w) and Section 55(8) to (10). A bank that is a covered bond issuer shall, in cooperation with the covered bond programme administrator, notify Národná banka Slovenska without delay regarding its intention to transfer a covered bond programme or a part thereof. Prior approval of Národná banka Slovenska under Section 28(1)(g) shall be a prerequisite for the validity of an agreement on the transfer of a covered bond programme or a part thereof or any other agreement serving this purpose.

(9) For a transfer of a covered bond programme or a part thereof to be valid and effective, the holders of covered bonds must consent to the change of issue conditions for the covered bonds under another act^{52a} consisting of a change in the issuer of covered bonds as a result of the transfer of the covered bond programme or a part thereof; this shall not apply to procedures under Section 55(8) to (10) or under another act.^{28a} The consent of debtors of liabilities corresponding to claims that form the primary assets under Section 70 shall not be required for the transfer of the covered bond programme to be valid and effective. Transfers of a covered bond programme or a part thereof are governed by the provisions of the Commercial Code concerning the sale of an enterprise or a

part thereof;²⁸ the transfer of a covered bond programme shall not require a transfer of neither the enterprise's personal assets, nor a part of it;^{28b} upon completion of the transfer of a covered bond programme or a part thereof the creditor may not seek a declaration of ineffectiveness of the transfer or transition of such liability from the seller to the buyer where the obligation towards the creditor forms a part of the transfer of a covered bond programme or the corresponding part thereof.^{28c} Transfers of a covered bond programme or a part thereof shall be recorded in the Commercial Register as other legal information^{61a} on the bank that is the issuer of the covered bond concerned. A bank issuing covered bonds shall submit to the competent court a proposal to record the transfer of a covered bond programme or a part thereof immediately upon completion of the transfer. The seller of a covered bond programme or a part thereof shall, without delay, demonstrably notify the holders of covered bonds on the assumption of liabilities by the buyer of the covered bond programme or a part thereof, and the debtors of liabilities corresponding to claims forming the primary assets under Section 70 on the transition of such claims to the buyer; the validity and effectiveness of the transfer of a covered bond programme or a part thereof are not conditional upon these notification duties.

(10) From the day of delivery to Národná banka Slovenska of written notification regarding the intention to transfer a covered bond programme from a bank that is a covered bond issuer under paragraph 13 to a third party under the same conditions as laid down in Section 55(8) to (10) or in another act,^{61aa} the discharging of obligations under the covered bond programme shall be as follows:

- (a) during the first month, the bank that is the issuer of the covered bonds shall discharge its obligations under the covered bond programme within the original maturities and in full;
- (b) from the second until the twelfth month, the bank that is the issuer of the covered bonds shall discharge within the original maturities and in full only interest payments from covered bonds; if the residual maturity of a covered bond issuance is shorter than 11 months, the original maturity of the covered bond issuance shall be prolonged by 12 months, with other issue conditions, including the method of determining yields, applying also to the prolonged maturity of the covered bond issuance.

(11) From the day of delivery to Národná banka Slovenska of a written application submitted by the corresponding receiver to extend the period for the transfer of a covered bond programme from a bank under paragraph 13 to a third party by an additional 12 months under the same conditions as laid down in Section 55(8) to (10) or in another act,^{61aa} the discharging of obligations under the covered bond programme shall be as follows:

- (a) during the additional 12 months, the bank that is the issuer of the covered bonds shall discharge within the original maturities and in full only interest payments from covered bonds; if the residual maturity of a covered bond issuance is shorter than 11 months, the original maturity of the covered bond issuance shall be prolonged by 12 months, with other issue conditions, including the method of determining yields, applying also to the prolonged maturity of the covered bond issuance;
- (b) the prolongation of maturity by an additional 12 months shall also apply to covered bond issuances due in the previous 11 months in accordance with paragraph 10(b).

(12) If Národná banka Slovenska does not issue prior approval in accordance with Section 28(1)(g), the prolongation of maturity of an issuance initiated by the delivery of a notification under paragraph 10(b) or an application under paragraph 11 shall end on the day of delivery of the decision rejecting the application for prior approval; if the corresponding receiver does not submit an application for prior approval under Section 28(1)(g), the prolongation of maturity of an issuance shall end with the lapsing of period defined in paragraph 10(b) or paragraph 11. If, originally, the covered bond issuance was to become due before lapsing of the prolonged maturity, the covered

bond issuance shall become due on the day of lapsing of the prolonged maturity, with other issue conditions, including the method of determining yields, applying also to the prolonged maturity of the covered bond issuance.

(13) The provisions of paragraphs 10 to 12 shall only apply to banks that have issued covered bonds and are in receivership, in resolution or under an adjudication of bankruptcy.

Section 68

Cover pool

(1) A cover pool consists of:

- (a) primary assets as defined in Section 70;
- (b) substitution assets as defined in Section 72;
- (c) hedging derivatives as defined in Section 73;
- (d) liquid assets as defined in Section 74.

(2) Assets become a part of a cover pool with their recording in the covered bond register and remain a part of the cover pool until they are removed from the covered bond register.

(3) A cover pool may only be used to cover:

- (a) the obligations of a bank that is a covered bond issuer to pay out the nominal value and aliquot interest yields from all covered bonds issued by this bank until they have been redeemed in full;
- (b) the estimated obligations and costs of a bank issuing covered bonds which derive and are directly related to the administration and settlement of covered bonds towards entities performing activities under this Act, or which derive from the issue conditions, specifically vis-à-vis the covered bond programme administrator, payment service agents, administrators, representatives of covered bond holders and other entities that have been performing similar activities for at least 12 months;
- (c) obligations of a bank that is a covered bond issuer related to the hedging derivatives under Section 73.

(4) Assets that make up the cover pool are used by banks issuing covered bonds on a priority basis to cover the obligations laid down in paragraph 3; until their removal from the covered bond register, the banks shall not alienate these assets or use them to secure other liabilities.

(5) If a bank that is a covered bond issuer is unable to ensure full and timely coverage of its obligations, the assets under paragraph 1, including their collateral, or proceedings from their transfer will be used on a priority basis to cover the obligations defined in paragraph 3 until they have been fully repaid.

(6) Claims of a bank that is a covered bond issuer recorded in the covered bond register and meeting the requirements laid down in this Act shall not be subject to execution.^{61ab}

Section 69

Calculation of the coverage indicator

(1) The coverage indicator is the ratio of the value of the cover pool under Section 68(1) and the sum of liabilities and costs under Section 68(3) of a bank that is a covered bond issuer. A bank issuing covered bonds shall calculate the coverage indicator as at the last day of the month.

(2) A bank that is a covered bond issuer shall maintain a coverage indicator of at least 105%, depending on its rating and other evaluation, assessment or testing of the coverage indicator; this shall be without prejudice to the coverage requirements laid down in paragraph 3.

(3) In the individual issue conditions for covered bonds, a bank that is a covered bond issuer may specify a higher coverage indicator than the one stipulated in paragraph 2; a bank that issues covered bonds in this way shall maintain the higher coverage indicator for the entire corresponding covered bond programme until the respective covered bond issuance has been redeemed in full. If a bank that is a covered bond issuer specifies several higher coverage indicators for different issuances, it shall maintain the highest coverage indicator for the entire corresponding covered bond programme until the covered bond issuance with the highest coverage indicator has been redeemed in full; at the same time, the bank shall, without delay, top up and continue to top up the cover pool appropriately.

Section 70 **Primary assets**

(1) Primary assets under Section 68(1)(a) are claims of a bank issuing covered bonds related to mortgage loans with a residual maturity of a maximum of thirty years provided to consumers in accordance with another act,^{61b} secured by security interests in real properties under Section 71 and recorded, at the bank's discretion, in the covered bond register.

(2) In addition to claims of a bank that is a covered bond issuer, primary assets under paragraph 1 also include security interests in real properties as defined in Section 71(1) used to secure these claims.

(3) Primary assets under paragraph 1 shall represent at least 90% of the total value of the cover pool excluding the value of liquid assets under Section 68(1)(d).

(4) The value of the primary assets shall be determined on the basis of the residual nominal value of the individual claims and the aliquot interest yield.

(5) The value of primary assets under paragraph 4 shall not include claims or parts thereof under paragraph 1 of a bank issuing covered bonds where a default of the borrower has occurred as defined in other legislation.^{61c} A bank that is a covered bond issuer must remove claims and parts thereof defined in the first sentence from primary assets and delete them from its covered bond register without delay upon the borrower's default. Unless a primary asset is being deleted from the covered bond register due to the repayment of a mortgage loan, exceeding the maturity period of a mortgage loan stipulated in paragraph 1 or for the reason stipulated in the second sentence or in Section 71(2), deletion can only take place with the consent of the covered bond programme administrator including specification of the reason the asset's deletion by the bank that is the issuer of the covered bonds. The bank shall delete the data from the covered bond register under the previous sentence no later than 30 days after the covered bond programme administrator granted their consent. The deletion of a primary asset from the covered bond register without the consent of the covered bond programme administrator shall be invalid.

(6) A bank that is a covered bond issuer or its legal successors may not demand early repayment of its claims from mortgage loans under paragraph 1 for reasons on the side of the bank, even where the bank that issued covered bonds or its legal successors are wound up and liquidated; this shall not apply in resolution of a bank that is a covered bond issuer under other acts governing financial market resolution,⁶² nor in the conversion into money of bankruptcy assets of a bank that

is a covered bond issuer after the termination of the operation of the enterprise by the bankruptcy administrator in accordance with another act,^{28a} if the claims from mortgage loans under paragraph 1 cannot be converted into money before the termination of the operation of a bank that is a covered bond issuer.

Section 71 **Requirements for real properties used to secure primary assets**

(1) A real property used to secure primary assets under Section 70(1) shall meet the following requirements:

- (a) it shall comply with the requirements laid down in other acts^{62a} and be located in the territory of the Slovak Republic;
- (b) at the time of registration in the covered bond register in accordance with Section 68(2), the outstanding principal of the corresponding mortgage loan under Section 70(1), together with the eligible security interests in accordance with point c, shall not exceed 80% of the value of real property collateral;
- (c) it shall not be encumbered by another security interest or transfer restriction in addition to security interests and transfer restrictions in accordance with other acts.⁶³

(2) If the value of the real property securing a mortgage loan falls to the current value of the outstanding principal of that loan under Section 70(1), the liability from the mortgage loan may be included in the primary assets, as long as only up to 80% of the value of the real property collateral is taken into account. If the value of the real property securing a loan falls below the outstanding principal of that mortgage loan under Section 70(1), the liability from the mortgage loan shall not be included in the primary assets. A bank that is a covered bond issuer shall remove this asset from the covered bond register without delay.

(3) A bank that is a covered bond issuer shall determine the value of real property under paragraph 1 based on the overall assessment of the real property concerned. A bank issuing covered bonds shall only be bound by its own real property valuation. In determining the value of the real property, a bank that is a covered bond issuer shall take into account prudential assessment of its future marketability, long-term value sustainability, market conditions and its usability. The value of real property under paragraph 1 shall be demonstrably documented.

(4) A bank that is a covered bond issuer shall continuously monitor and regularly re-evaluate the value of the real property collateral in accordance with other acts.⁶⁴

Section 72 **Substitution assets**

Section 73

Hedging derivatives

(1) Hedging derivatives under Section 68(1)(c) consist of derivatives⁶⁵ used to manage and mitigate currency risk or interest rate risk associated with issued covered bonds.

(2) Hedging derivatives shall meet the qualifying criteria of an effective reinsurance relationship laid down in other legislation.⁶⁶

(3) If a bank that is a covered bond issuer conducts transactions aimed at mitigating currency risk or interest rate risk deriving from net open currency position or interest rate position between the issued covered bonds and the assets in the cover pool, it shall include these hedging derivatives and the associated financial flows, as well as their collateral, in the cover pool.

(4) In calculating the value of the cover pool, the hedging derivatives should be included as follows:

- (a) hedging derivatives used to mitigate currency risks shall be valued at fair value;
- (b) hedging derivatives used to manage and mitigate interest rate risks of substitution assets shall be valued at fair value;
- (c) hedging derivatives used to mitigate interest rate risks of primary assets and covered bonds shall not be included in the calculation of the value of the cover pool.

(5) Notwithstanding the provisions of an agreement governing hedging derivatives, the introduction of receivership, resolution, winding-down or bankruptcy in relation to a bank that is a covered bond issuer shall not be considered a reason to terminate a transaction, realise collateral or perform the final settlement of profits and losses if the bank that is a covered bond issuer or the corresponding administrator continue to manage the cover pool and discharge their main contractual obligations, including the processing of payments, fulfilment of obligations and provision of collateral.

Section 74

Liquid asset buffer

(1) If a bank that is a covered bond issuer does not have harmonised maturities of inflows and outflows within a covered bond programme during the entire period of the following 180 days, so that all of its expected outflows from the covered bond programme are covered, it shall back them with a liquid asset buffer of at least the same value as the uncovered outflows unless Section 67(13) stipulates otherwise; these assets shall be included in the cover pool under Section 68(1)(d).

(2) The liquid asset buffer shall consist of:

- (a) Level 1 and Level 2A assets as defined in other legislation,^{66a} except for own covered bonds issued by a bank that is a covered bond issuer;
- (b) exposures^{64a} to institutions.

(3) If, within the following 180 days, the principal of a covered bond issuance becomes due, the difference between inflows and outflows shall be calculated as follows:

- (a) for the period of the following 30 days, the calculation shall include both inflows and outflows in full;

(b) for the period of the following 31 to 180 days, the calculation shall include the full amount of inflows and outflows from interests and principal, unless Section 122ya(16) stipulates otherwise.

(4) The value of securities included in the liquidity asset buffer shall be determined on the basis of their fair value, including the aliquot interest yield.

(5) The value of the liquidity asset buffer shall be included in the coverage indicator.

(6) Liquid assets that make up the liquidity asset buffer under this Act may be included with regard to the liquidity requirements for a period of 30 days in accordance with other legislation^{66a} only to the extent necessary to cover the uncovered outflows from covered bonds during the following 30 days.

The entry of a security interest established in a real property as collateral into the covered bond register shall be without prejudice to the entry of a security interest in a real property into the Land Register under another act.^{66b}

(3) A bank that is a covered bond issuer shall be responsible for the accuracy, completeness and currency of the information registered in the covered bond register. A bank issuing covered bonds shall, without delay, correct in the covered bond register any incorrect, incomplete or out-of-date information and immediately notify the covered bond programme administrator.

(2) A bank that is a covered bond issuer shall conduct a stress test at least once a year, no later than 31 March of the following calendar year, using the data as of 31 December of the previous calendar year. The stress test shall cover the entire calendar year in which the stress test is conducted.

DIVISION THIRTEEN LOANS FOR YOUNG MARRIED COUPLES

Section 88a

(1) Where the borrowers under a loan agreement are a married couple and none of the spouses is older than 35 years and the marriage has lasted for maximum two years (hereinafter a 'young married couple') as at the date when they apply for a loan (hereinafter 'loan for young married couples'), the borrowers shall, under the terms and conditions laid down in this Act, be entitled to receive an interest subsidy from the state budget (hereinafter 'state interest subsidy for young married couples').

(2) 'State interest subsidy for young married couples' means a percentage by which the State reduces the rate of interest set in a loan agreement made between a bank and a young married couple. The percentage of a state interest subsidy for young married couples shall remain unchanged throughout the loan repayment period, as agreed when the loan agreement with the young married couple is concluded. Such state interest subsidy for young married couples for loan agreements concluded in individual calendar years shall be specified in percentage terms in the State Budget Act for the corresponding fiscal years. The value of a state interest subsidy for young married couples shall be rounded up to the nearest whole euro cent.

(3) A young married couple shall be granted a state interest subsidy for young married couples if:

- (a) as at the date when they file an application for a loan for young married couples, the spouses together have an average monthly income, calculated from their income in the calendar year preceding the year of application for a loan for young married couples, of no more than 2.6 times the average monthly nominal wage of an employee in the Slovak Republic's national economy, as ascertained by the Statistic Office of the Slovak Republic for the calendar quarter preceding the calendar quarter in which the application for a loan for young married couples is submitted;
- (b) the bank or foreign bank branch undertakes to reduce the interest rate fixed in the loan agreement with the young married couple, starting from when the loan is provided to the young married couple and interest is first charged thereon and throughout the loan repayment period, by at least one half of the state interest subsidy for newly married couples determined in accordance with paragraph 2;
- (c) the application for a loan for a young married couple was filed on or after 1 April 2010.

(4) For the purposes of calculating the state interest subsidy for a foreign currency loan provided to a young married couple, the amount of the loan shall be converted at the reference exchange rate set and published by the European Central Bank or Národná banka Slovenska,³¹ and effective as at the date when the loan agreement with the young married couple is concluded.

(5) A state interest subsidy for young married couples shall be granted for loans not exceeding EUR 10,000.

(6) Loans, including interest, provided to young married couples eligible for a state interest subsidy for young married couples are normally agreed to be repaid in regular monthly instalments. Where the repayment of a loan by a young married couple is agreed differently, the amount of funds granted in form of a state interest subsidy for young married couples shall not exceed the amount that would be granted as a state interest subsidy for young married couples with that loan if it were to be repaid in monthly instalments.

Section 88b

(1) A state interest subsidy for young married couples shall be claimed by a young married couple from the state budget in an application submitted to a bank or a foreign bank branch.

(2) A state interest subsidy for young married couples shall be granted to a young married couple in each year of the loan repayment period as agreed when the loan agreement with the young married couple was concluded, provided that it is granted for one loan only. Any amendment to a loan agreement with a young married couple increasing the loan amount up to the limit defined in Section 88a(5) shall be deemed to be the same loan agreement with the young married couple in question.

(3) Where a young married couple concludes more than one agreement on loans for young married couples, the state interest subsidy for young married couples shall be granted for the agreement for which a written statement to that effect is made; if such statement is made for more than one agreement on loans for young married couples in the same year, the young married couple's entitlement to a state interest subsidy shall lapse in respect of all such agreements for the next 12 calendar months, starting from the first day of the calendar month following the receipt of notification in writing from the Ministry or a legal person appointed by it of the existence of more than one agreement on loans for young married couples for which a state interest subsidy for young married couples has been claimed.

(4) A young married couple shall not be entitled to a state interest subsidy for young married couples during any period when, on grounds of the young married couple's default lasting for more than 90 days, the bank or foreign bank branch reclassifies the claim arising from the loan for married couples to such classified claims for which it is reasonably assumed that they will not be satisfied in the full amount of their nominal value.

(5) The entitlement to a state interest subsidy for young married couples shall lapse if the young married couple:

- (a) transfer the liability from a loan for young married couples to another person, except to a person close to them; a close person must, as at the date of transfer of liability, meet the conditions laid down in Section 88a(1) and (3)(a);
- (b) when entering into a loan agreement including a state interest subsidy for young married couples, submitted false information regarding the average monthly income or age;
- (c) divorce during the term of a loan agreement made for a loan for young married couples.

(6) If either or both of the spouses die, the entitlement to a state interest subsidy for young married couples shall be assigned to the person to whom the outstanding liabilities from the loan for young married couple are assigned.

(7) If a young married couple's entitlement to a state interest subsidy for young married couples lapses under paragraph 5(b), the young married couple shall forthwith return any state interest subsidy they have been granted, through the bank or foreign bank branch.

(8) The bank or foreign bank branch shall not bear any liability for the veracity of the information regarding average monthly income as referred to in Section 88a(3)(a).

From that account, the bank or foreign bank

branch shall draw the appropriate amounts for individual couples eligible for a state interest subsidy for young married couples on a monthly basis.

(4) Banks and foreign bank branches shall ensure the settlement of state interest subsidy payments received for young married couples for a specific year within the time limit set by the Ministry.

(5) Banks and foreign bank branches shall be responsible for:

- (a) the timely submission of claims for state interest subsidies for young married couples from the state budget;
- (b) the correct calculation of the amount of state interest subsidies for young married couples;
- (c) the return of a state interest subsidy by a young married couple in the event of non-compliance with the terms and conditions stipulated for the granting of a state interest subsidy.

Section 88d

The Ministry shall be entitled to request from a bank or a foreign bank branch any supporting documents needed to verify compliance with the terms and conditions stipulated for the granting of a state interest subsidy to young married couples. The provisions of another act⁷² shall apply as appropriate to the exercise of such state supervision.

(4) If, in exercising state supervision, the Ministry reveals any shortcomings in the operations of a bank or a foreign bank branch, consisting in non-compliance with the terms and conditions stipulated for the granting of a state interest subsidy to young married couples, it shall place the bank or foreign bank branch under the obligation to repay to the state budget any state interest subsidy illegitimately used by young married couples.

(5) In addition to the measure mentioned in paragraph 4, the Ministry may also impose upon a bank or a foreign bank branch, depending on the severity and duration of non-compliance, a fine of up to twice the amount of a state interest subsidy illegitimately used by a young married

couple. If the measure under paragraph 4 is not respected, a fine may be imposed repeatedly, in a total amount not exceeding the limit defined in the first sentence. Such fines shall bring in revenues for the state budget.

(6) Proceedings under paragraphs 4 and 5 shall be subject to the Code of Administrative Procedure.^{72a}

(7) The employees and members of bodies of the Ministry or of the person it commissions under paragraph 1 shall keep confidential any facts that are associated with the pursuit of activities mentioned in paragraphs 1 to 3.
